

VOL. XXIV.

ATLANTA, GA., FRIDAY MORNING, NOVEMBER 11, 1892.

PRICE FIVE CENTS.

# THE SULTAN AND HIS HAREM.

Royalty's First Visit to the Cracker City,  
WITH THE ENTIRE ROYAL TRAIN.  
How His Majesty Will Reach Our Shores.

There has been a vague and misty shadow of uncertainty connected with the name of the sultan soon to visit Atlanta.

Who is he and what is he? are questions that have been asked a thousand times over.

And still the question comes up once more, what do these strange things we see in the papers about a sultan coming to Atlanta mean?

Well, as near as can be ascertained, the fact still remains that he is coming and that he will be in the city for some time.

It has been heralded to the reading public for many days that this strange person with all manner of fleets and naval escorts

was sailing over the waters deep and blue towards Atlanta, and it is now given out in deed cold earnest that he will certainly arrive on schedule time and come direct to the city of Atlanta, the city of golden gates.

Yes, the sultan will arrive in Atlanta bright and early next Tuesday morning.

He will come from the point of landing by the popular Richmond and Danville railroad and will be escorted to the city by his host of pashas, fan-wavers, bottle-holders and what-nots.

He is coming and with him will come the entire royal train, the most magnificent of its kind, as mustered within the gates of splendid Atlanta.

He is coming, and as the regular train on the passenger schedule of the Richmond and Danville comes puffing into the city at 11 o'clock that day, he will be preceded by a great caravan, handsomely decorated with colors that will in their gorgeous display shame the rainbow of great nature, and lend life and light to the scene in the very outset.

Upon this caravan or float will be seated the regular advance guard of the sultan. There will be pashas world without end, noblemen from the mystic land from which the sultan has come, and fan-wavers of every size and color, all splendidly decked out in their best Sunday-going-meeting clothes, ready to receive the cordial greeting to the city of golden gates that her loyal citizens have determined to give the distinguished visitor.

About fifty yards behind this caravan will come the regular passenger train, itself decorated in the grandest style possible to conceive.

This train will pull a special coach in the rear, in which the sultan will have traveled since his arrival in this country. He will have in his special coach a lot of other pashas and body servants.

He will have in his special coach a lot of other pashas and body servants. They will have in their best Sunday-going-meeting clothes, ready to receive the cordial greeting to the city of golden gates that her loyal citizens have determined to give the distinguished visitor.

Such as Atlanta has grown famous by rendering. The governor of the Empire State of the south will stand ready at the state house to make an address of welcome to the sultan and at his side will be the honorable mayor of the city who will likewise give the sultan a rousing good greeting as the special guest of the city.

# WELCOME

Is the Greeting Atlanta Extends to All the People  
WHO COME WITHIN HER GATES  
To Enjoy the Parade to See What is to Be Seen and to Make Life Merry While They May.

Atlanta extends a cordial invitation to every man, woman and child in Georgia to visit her during the approaching carnival.

Already a few of the "early birds" have arrived in the city. They say they have come early in order to avoid the rush of the next few days.

A magnificent pageant and for a worthy and brilliant display of her resources. Atlanta renews her invitation to the people of Georgia and the citizens of the adjoining states.

She only begs, by way of parenthesis, that every man who comes to Atlanta will leave his "worries" at home and bring with him nothing but smiles and a

major Glover comes down for the Little Red Cannon.

Hon. Tom Glover, who has been mayor of Marietta ever since he was old enough to talk was in Atlanta yesterday on business connected with Marietta's celebration of the result of last Tuesday's election.

He called at the constitution office and announced that he had been appointed a committee of one to secure The Constitution's Little Red Cannon, which will be given a post of honor in the procession at Marietta tonight, and will rattle its merry notes against the solid walls of Kennesaw mountain to the tune of seven thousand democratic voices.

The celebration takes place tonight and every arrangement is being made for a great event. President Clay of the senate will be there and indeed every body who lives in Marietta or who has ever lived there will be on hand. The town will be illuminated, and the occasion will be in full accord with the glorious victory it is to celebrate.

Mayor Glover was given the little red cannon on the assurance that it would be delivered back safely the day after the celebration. He says that after it does its work tonight he will, if necessary, take it to his own bed with him and bring it back to the Constitution tomorrow morning, with a blue ribbon tied around its little neck.

Appointed Receiver.

Wednesday Mr. George Parrott was appointed, by Judge Newman, temporary receiver of the Rome Rolling Mill Company on the application of the People's bank of Chattanooga. Mr. Parrott accepted and was qualified, yesterday asked to be released as he found after a calculation that he would have all his time taken up with his own business.

It is possible that Judge Newman may appoint some one in Mr. Parrott's place.

The Leading Music House in the South.

Atlanta boasts of the largest and most successful music house in the south Atlantic states. The Fryer-Bradley Music Company is easily in the lead of all would-be rivals. Elsewhere in today's Constitution is an attractive presentation of the claims of this house. Mr. F. L. Fryer, the senior member of the firm, established the first music house in Georgia, and he has seen the business expand until it has reached large proportions. It is not exaggeration to declare that this house sells twice as many pianos and organs as are sold by any other house in Georgia. The commercial standing of the firm is above reproach, and the public reposes in them the utmost confidence.

Never once has this confidence been abused. Visitors to Atlanta next week will find this an attractive place to visit. The eminent pianist, Joseph Hart Denck, is to perform in the afternoon at all hours. The Constitution commends this old and reliable house.

# THE SIGHTS OF THE CITY.

What Visitors Find in Atlanta to Interest Them.  
ATLANTA A COSMOPOLITAN CITY.  
Sightseers Go to the Capitol and to the Grady Monument.

In the matter of her visitors and sightseers Atlanta is truly a cosmopolitan city. Every day the railroads entering the city, from every point of the compass, empty trainloads of strangers at the union depot, who are eager and intent to know something about the wonderful Atlanta, known in ante-bellum and wartime histories as well as in the modern record of industrial progress.

Atlanta is interesting to the stranger within her gates for many reasons. A historic interest attaches to Atlanta, it being the scene of some lively fighting toward the close of the war, and in the final incidents of a lamentable conflict it was the scene of ruin.

Sherman's army invaded the fair city, and everybody knows, for history teaches

it, that the invasion of Sherman's army means destruction.

Atlanta possesses an interest not usual to every city of her size, being the capital of the state. Travelers have a mania for capitals of states. They gloat upon them. They make notes about them. Going around they run up on a city they suddenly remember some of their geography, and say, "Why, by George, this is the capital of this state." And then they straightway make haste to see what time of day it is by the capital clock, look at the governor's mansion, get a good idea of the town, get a shine and leave. That's the way travelers do it. They rummage through by streets of provincial towns, having neither homes, nor manufactures, nor business enterprises of any kind, to make it a point of interest for nothing but the reason that it is the capital of the state in which it is located. Otherwise it would be passed by unnoticed.

Travelers have a way of hording up useful information about capitals and metropolises which they turn loose upon the untraveled when they can corral them.

There are many other objects of interest here that serve to attract the curious. Atlanta's industrial life, her homes, her elegantly paved streets, her matchless system of electric railways, and at this season of the year, the Georgia legislature.

Besides all the interesting objects enumerated, people travel for hundreds of miles and come here to see Jumbo Hunter. Hundreds and hundreds of strangers in the city have called at the city hall and at the police station, and in anxious tones, would say to some one:

"Can you tell me, please, sir, where I can find Jumbo Hunter?"

The inquirer would be directed to that functionary's office. There, for a long while, they would stand and gaze at him in open-eyed, open-mouthed admiration, and wonder. Then, they would go home happy and content. They could tell their neighbors and

friends and their grandchildren after them "I've seen Jumbo Hunter."

There's a plenty to see here, and the visitor has no dull time if he is willing to practice his legs and hunt up the places of interest.

Atlantians can tell a stranger or a visitor to the city as soon as they see him on the streets. There's an air about Atlantians that is unmistakable, and it easily distinguishes residents here from people from afar. Every day our home people see some wondering individual marching along with an interested look, and he mentally puts him down as a visitor.

The visitors can be found at the state capitol, going through its marble corridors, resounding with the tramp of feet, looking in on the legislative hall and senate chamber, dropping in on the governor, looking through the agricultural department with its display of Georgia's great products.

Some of the sights.

# AT GAMMON SCHOOL.

The regular work of the year in this institution began October 5, with an excellent attendance. Extensive of a more formal character are held each year on the second Thursday in November.

The chapel in Gammon Hall was completely filled yesterday afternoon to hear the address of Bishop Fitzgerald. Traver was offered by the Rev. A. P. Melton, one of the earliest graduates of the seminary, in presiding over the service. A splendid display of having first met him at the Central Tennessee college at Nashville, some years before, and of being deeply impressed by the recent tribute of Dr. John Braden to the faithfulness of the colored race for the past fifteen years.

Bishop Fitzgerald immediately won the sympathy and interest of his audience, and for an hour held his hearers throughout an address characterized by sympathy, broad humanity and real brotherliness, and that will be long remembered for its wisdom and practical helpfulness to young ministers. He spoke of the call to the ministry and illustrated it from his own experience. His first charge was a colored church in Macon. He enforced the necessity of character in the minister, made an earnest plea for earnestness, utter freedom from deceit, manliness, integrity. A lie as Holmes says, is a lie. It cannot lie in one place. Truth is like a rule. It is always right side up. He said that to the Christian there was no such thing as a good God's Providence rules over all and directs our lives. Trust God and do your duty. He invoked God's blessing on the numbers who are to go forth from Gammon. He stood as their friend and brother in the work. At the close he paid an eloquent and feeling tribute to Mr. Gammon, who had founded this great school in the center of the south, which was destined to do a vast work for humanity.

A Card to Carnival Visitors.

Everybody intending to visit the carnival should be sure to carefully read the advertisement of the mammoth concern of Wood-Seamont Stove and Furniture Company. They have the largest and best assortment of goods in the south. Everything almost that is needed to completely furnish your home from parlor to kitchen. Finish parlor suites, six pieces, were priced to us at \$25, while suites at \$30, \$35 and \$40, were simply magnificent. This firm is selling three-piece chamber sets in solid oak at \$13.50, lower prices still for elm suites. Better suites at \$15, \$18, \$20 and \$25. We saw a folding lounge at \$7 that showed the greatest value for

the price of anything ever made in this line. Stoves and all in great quantities at the Wood-Seamont Stove and Furniture Company. They make a specialty of a number seven stove with thirty-eight pieces of ware for \$8. They also own the patterns of the finest steel plate French range ever sold in America. The Imperial steel-plate French range will sell for \$35. The usual price for this splendid range is \$60. Nothing should prevent you calling on this old and well-known firm. They have been in business at their present stand on Whitehall street for sixteen years, and their reputation for fair dealing is excelled by no firm in the United States. All goods delivered free to the homes of carnival visitors.

Will positively cure a neck headache and prevent its return. Carter's Little Liver Pills. This is not talk, but truth. One pill a dose, with a glass of water, will cure you. It has cured thousands.

OUR NEXT PRESIDENT.

What a Prominent Business Man Says About Cleveland's Election.

A Constitution reporter called on Mr. L. D. Nelson yesterday and asked him about the business outlook.

Mr. Nelson said: "I feel very good about the outlook in business circles in every department of trade. There is no question of Cleveland's election. Indeed, it is an overwhelming democratic victory and this is enough to inspire confidence throughout the people, a fact alone sufficient to create the business and a feeling of confidence. I have

for a year of prosperity that has never yet been known in the history of the south. Atlanta is especially fortunate, for it is distinctively the trade center of this section, and already the people are imbued with a spirit of confidence that is unheard of in the history of business circles. The election of Cleveland is truly a God-send to the whole south.

"I have just made a trip to New York," continued Mr. Nelson, "where I went on to make my purchases of fall goods and especially to secure the services of a cutter whom I have been after for some time and whom I consider the best man in his line who ever came south. That man is Mr. Robert Sharpe, and I have brought him to Atlanta by paying him the largest salary ever paid for a cutter."

Mr. Nelson believes there is no reason why an Atlanta establishment oughtn't to turn out clothing in every way equal to that of the most fashionable tailoring establishments of New York and Boston—"and at prices," he added, in talking about the matter, "30 per cent lower than those in New York. Mr. Sharpe is an artist and a good reputation in his profession is national. He has held responsible and leading positions with such famous houses as Brooks Bros., of New York. Mr. Sharpe was secretary of the National Tailors' Union and is now a valuable contributor to several of the prominent journals devoted to fashion and trade. I cite this simply to show the standing of Mr. Sharpe. As to his ability, several medals and diplomas he has received at the national conventions, the high positions he has held and the excellent work he has always done speak volumes for him. I consider myself very fortunate in securing Mr. Sharpe and I am sure he will please everybody. There is now no possible reason why Atlanta men should send east for their clothing, for we will be able to give them the same goods just as artistically cut as those at any of the swiftest places in New York."

Mr. Nelson has brought back with him what he considers the finest line of suitings every brought south. While in New York he secured six expert Swede tailors.

"I pride myself on my taste and ability to select a stock and I'm sure we will be able to please everybody," added Mr. Nelson. "And I wish you'd say for me that unless our goods suit our customers they needn't take them. That's a rule we make. We want to please and we propose to do so. Among the new things of the year are a number of novelties, and a lot of these which we have received came direct from Scotland."

Mr. Nelson's store on Whitehall has been remodelled at considerable expense and is one of the handsomest and most attractive places in the city. The interior has been paneled in white and gold and the large storeroom is handsomely finished.

# THE SULTAN AND HIS HAREM.

Royalty's First Visit to the Cracker City,  
WITH THE ENTIRE ROYAL TRAIN.  
How His Majesty Will Reach Our Shores.

There has been a vague and misty shadow of uncertainty connected with the name of the sultan soon to visit Atlanta.

Who is he and what is he? are questions that have been asked a thousand times over.

And still the question comes up once more, what do these strange things we see in the papers about a sultan coming to Atlanta mean?

Well, as near as can be ascertained, the fact still remains that he is coming and that he will be in the city for some time.

## A PERFECT FIT.

A Ready-Made Clothing House That  
Makes Tailors Jealous.

THE GEORGE E. MUSE CLOTHING CO.

Suits That Seem Out for the Weathers,  
and Styles That Discourt the  
Tailoring Plates.

Visitors to the carnival who wish to fit themselves with nobby, stylish suits while in the city should by all means call on the famous George E. Muse clothing company at 38 Whitehall.

This is one of Atlanta's most fashionable and popular clothing houses. The firm is well known, not only in Atlanta, but all over Georgia. It has a large trade and has worked its way into public favor and confidence by handling nothing but first class goods and dealing squarely in all transactions with customers.

The company buys direct from the leading manufacturers for cash and is thereby able to give a large discount on sales. Their suits have attracted so much attention by the stylishness of their cut, the perfection of their fit and the excellence of their material as to wear away scores of fashionable young men who have heretofore patronized the tailors exclusively.

Nothing has advanced so rapidly as the science of tailoring. Ten years ago, nothing but a perfect figure could be fitted by the "ready-made" dealer. Now the curves and dimensions and other eccentricities of the human form are so well understood that absolute measurement is no longer necessary. Everything is anticipated and provided for, and the stoop-shouldered man can find a suit in Muse's stock that will make him as straight as the most fashionable tailor could.

And the transaction saves him anywhere from twenty to forty dollars. If one were just permitted to examine the coat collars of many of the fashionable dressed young men seen daily on the streets of Atlanta, Muse's trade mark would be revealed so often as to be surprising. And the reason is just this: The styles change every season, forcing those who like to dress well to provide themselves with new outfits with each change. A tailor-made suit that would fit to wear costs from forty-five to sixty dollars, while a ready-made suit fitting just as nicely and wearing just as well, costs from fifteen to twenty-five dollars. As either suit would be laid aside at the end of the season, economy suggests the cheaper. That is the secret, and it explains the popularity of the George E. Muse Clothing Company.

Mr. Muse and his associates are gentlemen of sterling character and visitors to the carnival will receive courteous treatment while looking through their stock.

## A HOME CENTER.

The Atlanta Suburban Land Company's  
Property.

STEADILY INCREASING IN VALUE.

East End, South Kirkwood, and Candler's  
Park, All Thriving and Filling  
with Homes.

The Atlanta Suburban Land Company, which owns the beautiful suburban property near the eastern limits of the city, known as South Kirkwood, East End and Candler's park, has received a large number of applications for lots during the last week.

There has never been any effort made to boom this property because its location, accessibility and other advantages are such as to render such a course unnecessary. It is property which commends itself to home purchasers, and the company does not care to dump it all on the market at once.

Thousands of dollars have been spent in beautifying it, and President Aaron Haas says that the improvements will continue.

The result is that one who buys a lot in any one of the three suburbs will secure a most desirable home site.

The company will not sell or allow to be sold a lot to any person whose residence on the property would be objectionable. South Kirkwood, East End and Candler's park are intended to be representative home centers, at which the business men of Atlanta may settle down for life.

The tendency on the part of the public now is to seek suburban homes. Atlanta is getting so full of people that the situation is becoming cramped. The idea, to use an old-time phrase, is to get more handroom.

The man who builds a home now wants a front and back yard, where he can swing a hammock under the trees, and hear the chickens cackle. At the same time he wants to be convenient to his business and in close connection with all city privileges.

These advantages all present themselves to residents of South Kirkwood, East End and Candler's park, and those who want a home can choose between the three suburbs.

I would be afraid to name, or attempt to name, rather, the place affording the most desirable location. All have their advantages, and from a money-making standpoint, it would be hard to specify.

South Kirkwood is the closest to the city, beautifully laid off and already has a large number of handsome homes. But East End and Candler's are not only equally as well situated, but have a fine school and is destined to be an independent town, with a postoffice, business houses and other municipal paraphernalia.

On the other hand, Candler's park is a part and parcel of Decatur, which is not only one of the most fashionable and popular residence centers near Atlanta, but an educational place that has not a superior in the state.

If a man has money enough or can save enough to pay for a lot in all three suburbs, he ought to buy. The future will take care of him and bring him out of the venture with a handsome profit.

If you want to look at the property call at the Kiser building, 37 South Pryor street, where you will find Mr. Haas, who will be glad to show you the property and fully explain the prices and terms.

When in want of a good investment buy Salivation Oil, which costs only 25 cents.

If you are tired taking the large old-fashioned griping pills, try Carter's Little Liver Pills and take some comfort. A man can't stand everything. One pill a dose. Try them.

## THINK MURDER IS NOT A CRIME.

The Afghans Consider Smoking the Only Unpardonable Sin.

From the San Francisco Chronicle.

The average Kaludi does not regard murder as a crime. It is kill or be killed in his own country, and he therefore regards the taking of a friend-most philosophically. There is nothing to worry about; he is dead and I killed him," he will tell you if you should inquire about a companion with whom he was on the best of terms the preceding winter. I have heard an Afghan, while purchasing a weapon, speak with evident gusto of the occasion when he would use the gun to murder a friend. It caused him as little concern, this contemplated crime, as if he had said, "Shall I kill a chicken, if God so wills it, tomorrow for my pillow."

And yet there is something childish and affectionate about these men. They never seem to forget a favor and repay it to the best of their ability. Unlike other Mohammedans, they do not observe the Koran with blind obstinacy, but occasionally stretch its precepts to accord with their ideas of religion. They do not drink, for that is directly against the law, nor do they smoke. Palgrave, in his interesting book describing his journey to the sacred city of Mecca, gives an amusing account of his conversation with a Mollah.

On asking the reverend gentleman which he considered the most deadly of all sins, the holy man replied: "Smoking the shameful!"

"And next, oh, son of the prophet?" "Drinking."

"Are these the two greatest sins, father?"

"Verily, my son."

"And murder?"

"Ah, that's nothing—nothing. It's forgivable."

"But smoking the shameful, too?"

"It is the unforgivable crime," replied the Mollah sternly, and looking keenly at the fictitious Mohammedan.

And this, I think, is the Afghan's creed. Murder and theft are forgivable crimes, but for smoking and drinking there is no redemption.

## A Confederate Patent.

From The Washington Star.

Of the many people who think they know a good deal about the confederate government, only a few are aware of the fact that the confederacy was supplied with a patent office and that it issued patents in just about the same style as that practiced by the United States. How many inventions received such protection as could be thrown around them by the power which ruled the south for four years may never be known, but it is certain that at least fifteen received recognition, for on a wall in the office of Mr. James L. Norris in an original document which assured John L. Jones of Tally-Ho, North Carolina, that for fourteen years from the 20th day of August, 1861, he should have "the full and exclusive right and liberty of making, constructing, using and vending to others to be used," a new and useful improvement in carriage wheels. This was the fifteenth patent issued by the confederacy. It was signed by Judah P. Benjamin, attorney general, countersigned by Rufus R. Rhodes, commissioner of patents. Mr. Rhodes was United States commissioner of patents prior to the war.

Accompanying the parchment, which is properly sealed and which cost Mr. Jones the sum of \$40, are the customary specifications and drawings. The parchment is displayed in the specified manner, extremely beautiful, while the drawings, which are in India ink on linen tracing, could hardly be improved on. The whole form is a most interesting and valuable souvenir.

## Like Nancy Hanks.

From Texas Sittings.

Mother, to her old maid daughter—Why, Julia, what do you mean by using the family bible in that way? You are scratching our figures in the family record and inserting others.

Julia—It is a record of my birth, isn't it?

Mother—Yes, it is.

Julia—Well, I'm lowering the record.

Don't be deceived by dealers who "cut" prices. "Cutting" prices leads to "cutting" goods. For this reason and to protect the public, the genuine medicines of Dr. R. V. Pierce, are now sold only through regularly authorized agents, who can sell only at the following long-established prices:

Dr. Pierce's Golden Medical Discovery, \$1.00 per bottle. Dr. Pierce's Favorite Prescription, \$1.00 per bottle. Dr. Pierce's Pleasant Pellets, 25 cents per vial.

The genuine medicines, which can be had only at these prices, are the cheapest remedies you can use, for they're guaranteed. It's "value received" or no pay. In every case medicine of Dr. Pierce's medicines fail to benefit or cure, the makers will return the money. Refuse everything offered as Dr. Pierce's medicines at less than the above prices. They are generally spurious.

Don't get something that the dealer says is "just as good." It may be better for him, but it's pretty certain to be worse for you.

Dr. Pierce's medicines are sold by all druggists and by the following long-established agents:

## ONE MAN'S WORK.

A Building That Is a City Within Itself.

## THE MAGNIFICENT EQUITABLE BUILDING

What the Enterprise of Mr. Hurt Has Done for the Business Men of Atlanta.

If I were to designate one man who has done more to develop Atlanta in the last ten years than any other spirit within her limits, Joel Hurt would most assuredly be the name given.

If I were called upon to name the greatest enterprise in Atlanta outside of her splendid system of electric railways, I would not hesitate to write of the Equitable building.

One who has not gone through this magnificently appointed building can form no conception of what it is to the business man of Atlanta.

As a factor of convenience and development it is incomparably the most superior business house in the city.

Comfortable in all its arrangements, elegant and desirable in all its appointments, it is essentially the place above all others for the man of business who

told me several days ago that he intended to have a safe conducted in the court for the convenience of those who were too busy to go home at mid-day. With this addition and a fireproof safe and vault free to the tenants of the house, it seems to me that the Equitable cannot be excelled as an office building.

Already it is a wonderfully popular business point, as is emphatically demonstrated by the frequency with which the mail is removed from the large box which receives the letters of its tenants as they pass through a pneumatic mail chute that runs from every floor. Only a short time ago this box was emptied ten times a day.

Now the business has grown so as to make it necessary to remove the mail fourteen times a day. This is another index to the growing popularity of the Equitable building as a business resort.

I regard an office in this building as being twice as valuable as it is in any other part of the city, and this idea is getting to be pretty widely diffused among business men.

## Our Electric Railway System.

Radiating from this central building towards every point of the compass is Atlanta's splendid system of electric railway.

This is also an enterprise that was given life by that great developing genius who, single handed, has done more for Atlanta than any ten men within her limits. It was Joel Hurt's industry and brain that gave to our people rapid transit, and in doing it, conferred not only a blessing on the traveling public, but lent

Atlanta Home Insurance Company, an institution that has added greatly to Atlanta's business strength by the prosperity that it has enjoyed.

The Atlanta Home was organized in 1882 with a subscribed capital of \$200,000. Sixty per cent of this stock was paid in, and the company began business with a cash capital of \$120,000. The full amount of the stock has since been paid however, and today the company is operating under a cash capital of \$200,000. Its success has been very encouraging from the date of its organization until now, the assets being \$360,000, with a yearly premium income of \$150,000.

The Atlanta Home does business in Georgia, North and South Carolina, Alabama, Tennessee and Illinois, which is steadily growing. The offices and directors are filled by such well known business men as Albert J. Lowry, president; Joel Hurt, secretary; John T. Hunt, Jr., assistant secretary; S. M. Inman, T. G. Hooley, M. O. Kiser, Henry Jackson, R. J. Lowry, T. L. Langston, George Winship, Joel Hurt and J. H. Porter. These men are so well known in business circles that to name them is an all-sufficient endorsement to the communities who give the company their support.

United Underwriters Insurance Company. Still another institution that owes its organization largely to the indomitable seal of Mr. Hurt, and which stands out prominently as one of the representative corporations of this growing city, is the United Underwriters Insurance Company.

This company was organized March, 1889, with a subscribed capital of \$500,000, the full amount of which was placed in thirty days after the books

of the derivation of botanical names. At last, having fairly mastered the more common divisions of the vegetable kingdom, he began the study of fungi, and there, as he told a friend, he had found a work to last him a lifetime. This necessitated the purchase of more books, and finally, of a Beck's microscope. And for years he could be seen every day in his shop, on one side his tapestry, his bench and the implements of his daily labor, and on the other a library of botanical works in three or four languages, and on a shelf over his head his beautiful microscope.

And thus he spent the evening of his days until his death, a genial, cultivated, intelligent, Christian, scholar-botanist, deeply to a question as to the amount of time he had devoted to his studies he said: "Always an hour a day, and as much more as possible." Such was the record of Charles C. Frost, a man whom it was a privilege to have as a friend.

The second case is that of a farmer in Virginia from whom, some years ago, I received a request that he might send me a package of colored sketches of wild flowers, and that I would verify or rectify his determination of their names.

Inquiry developed the fact that he had reached adult age as a farmer, when he began to collect and name the birds of the Shenandoah valley. Not satisfied with stuffed specimens, he conceived the idea of painting the birds he collected.

With no artistic knowledge or instructions, he ordered paints and brushes and set himself at work, and today there are very few artists in the country who can paint birds with so much of artistic grace and scientific accuracy as he.

After a few years, having transferred to paper all the birds of the region, he procured a "Gray's Manual," and began to study the plates of the gallery, first determining their names and then painting them. He accordingly sent on a package of colored sketches, artistically attractive, and so true to nature that there was not the slightest doubt as to any of the seven hundred and fifty species represented, while his own unassisted determinations were so accurate that not a dozen names needed to be altered.

## His Challenge to the World.

From The Detroit Tribune. The orator had nailed with irrefragable skill the usual number of lies promulgated by the low-browed opposition. With glowing logic he had upheld the undying principles of his own party.

"And now," he exclaimed, his voice penetrating to the remotest corner of the room, "I come to the defense of my own record." The audience stirred uneasily while the orator swallowed a glass of water.

"Who can lay aught at my door of which I need be ashamed?" he asked.

He glared in all directions successively. "Who is there to accuse me?" he thundered.

A man without a coat or vest, who had been sitting thoughtfully on the back of a chair, rose to his feet.

"Is it true that you steal sheep?" he inquired.

"It is. I have stolen many sheep." The man without coat or vest looked significantly and resumed his seat on the back of the chair.

"Any further remarks?" shouted the orator.

An individual with tobacco juice on his shirt struggled to the front.

"Is there any foundation," he asked, "for the story that you sent your grandmother to the poorhouse to get her property?"

"The story is in the main correct." The individual with tobacco juice on his shirt knelt his brow and relapsed into obscurity.

"I should like to hear from others," announced the orator defiantly.

A party whose breath humanity sedulously avoided, climbed upon the stage.

"Did you actually murder your mother," he demanded, "to save the expense of keeping her?"

The party with the pestilential breath laughed harshly and lost himself in the crowd.

"Any more?"

The orator thrust his hand grandly into the bosom of his coat and waited. No one spoke.

"Gentlemen—"

"These are sins of the head rather than of the heart. I challenge the world to truthfully accuse me of sin of the heart."

After the deafening applause the band played a patriotic air and the meeting was declared adjourned.

Misery of November in Nebraska. From The Omaha World-Herald.

Of all the months this is the meanest; this is the ghastly skeleton at the feast of the year; it is a month of rain that sobs down the lattices and comes moaning to the door; a month of howl, eerie sounds, like voices from across the river that separates the worlds. It is a month of ash and gloom, of trees that groan and sigh and will like stricken women weeping over the tombs of their dead. There is nothing more dreary, nothing more like the horrid gloom of a Dante's dream, than a morning in November.

He Played Second Fiddle at Home. From The Memphis Commercial.

Strangely Minded Woman (to a relative, who has called on her)—My husband has now got a position in the orchestra. He plays first fiddle.

Relative—Not at home, does he?

"You bet he doesn't play first fiddle at home."

"That's what I thought."

## GIGANTIC GROWTH.

Push, Pluck and Perseverance Produce Prosperity.

## A MOST PHENOMENAL GROWTH.

What Three Young Business Men of Atlanta Have Accomplished in Two Years. An Example Worthy of Emulation.

Two years ago last July, three young men formed a partnership to conduct a clothing and gent's furnishing business in this city. They had some capital, but they also had what is equally necessary for success, they possessed ability, energy, push and high moral character. Armed with these, they launched out upon the commercial waters.

From the very day they hoisted sail they have encountered favorable winds.

Lumpkin, Cole & Stewart, who do an extensive clothing, hat and gent's furnishing business at 26 Whitehall street, is one of the most reliable firms in this city. Two years ago they began business, occupying the first floor of the building, where they are now at. From the day they opened their doors they have met with a success which is almost phenomenal. Their business increased so rapidly that they were soon forced to secure more room. The second floor of the building was secured, and their stock was increased in the same ratio. It was not long, however, before still more space was demanded, and they secured a third floor, with an entrance on Alabama street. With this increased space they now carry one of the best stocks of clothing, fine hats and furnishing goods to be found in Atlanta.

In connection with their business they have a merchant tailoring department and have a splendid order trade from the territory covered by a radius of 100 miles in every direction from Atlanta. They have contracts for furnishing the uniforms for the employees of the Atlanta and West Point, and the Western Alabama railroads. The members of the firm stand high in business circles, and they have just cause to feel a degree of pride on account of their rapid strides towards the zenith of fame in the commercial world.

## THE CABINO.

Where the Sultan's Subjects Get Their Refreshments.

Back in the seventies, when the writer of this sketch was imbibing that knowledge of the bright red variety as is taught in a certain Canadian college, he was much impressed by the legend which adorned the drop curtain in the building, which served the double purpose of town hall and theater. It was this: "We strive to please." That is evidently the watchword with Mr. Emil Selig, the proprietor of the elegant new Casino saloon at No. 41 South Pryor street. He keeps in stock nothing but the very best to be had in choice brands of wines, liquors and cigars. The elegant lunch which is served every day, between 11 and 2 o'clock, is a great feature of the place, and is doing much to add to its popularity. A large force of obliging attendants are ever willing to dispense the choicest drinks known to the barkeepers' art. The Casino is beautifully fitted up in oak, with all the modern appliances for the convenience of its patrons, the bar fixtures being one of Rothschild's best make.

Personally Mr. Selig needs no introduction to the drinking public. Suffice it to say that he is a genial and popular host. Visitors to the carnival will do well to call at the Casino, for the reputation it has already established is a sufficient guarantee of the standard of excellence there maintained, were the popular host not so well known. The Casino is located at No. 41 South Pryor street, in the Kiser building.

## An Estimate of the American Man.

From The Memphis Commercial. The American man is a sincere, unaffected, rugged gentleman. He despises shams of sentiment or shams of appearance. He refuses to become enthused at bombast and sneers at all superficial polish which hides unworthiness. He uses slang when slang is the shortest road to expression and dispenses elegance of diction which veils or distorts meaning. He is above all things truthful in the true sense of truth, which means that he will tell a political or business lie without a qualm of conscience, but will not knock down the man who poses as a practitioner of inviolable truthfulness.

## He Played Second Fiddle at Home.

From The Memphis Commercial.

Strangely Minded Woman (to a relative, who has called on her)—My husband has now got a position in the orchestra. He plays first fiddle.

Relative—Not at home, does he?

"You bet he doesn't play first fiddle at home."

"That's what I thought."

desires to transact his affairs in a quick, business-like way, without going to the trouble and annoyance of running over the city for every little thing that may be needed in routine work.

In this great center of business pursuits may be found not only all the various interests that are represented in metropolitan life, but all the conveniences for their successful and satisfactory operation. It is a veritable little world of pursuits, where the lawyer, the artisan, the insurance agent, the railroad official, the contractor, the broker, the banker, the publisher and those representing every character of commercial traffic may be sought for consultation or for an inspection of their exhibits.

It is nothing less than a revelation to go through the busy corridors of this great building and watch the thousands who are daily carried up its lightning elevators, all representing every pursuit that goes to make Atlanta a business center. There are four elevators running in this building from 5 o'clock a. m. to 7 o'clock p. m. hauling an average of 8,000 passengers a day. This is within 2,000 of the number hauled in the Equitable building at New York, and the chances are that the number of passengers hauled here will quite equal, if not exceed, the number in the New York building in a short time.

There are 300 rooms in the building, and 1,000 people are doing business there. The building is fireproof, being constructed of granite, brick, iron and marble. It is 120 feet high, eight stories, and is beyond question the most imposing and attractive structure in all the south. It is something more than this—it is the office center of Atlanta, and in the future, it is destined to mark the center of this great and growing city. It is especially desirable to business men, whose places of residence are more or less remote, for there they may office and transact their daily affairs without going from under its roof. Thus much time may be saved that would be otherwise consumed in going about the city, and the man of affairs allowed to return to his home at 6 o'clock instead of from 8 to 10.

Mr. Joel Hurt, whose great industry and enterprise gave this building to At-

an inspiration to values that has profited every property owner in the city.

The Atlanta Consolidated Street Railway Company is admittedly one of the finest systems that operates in the south. The system is made up of nine routes, touching the most remote parts of Atlanta and all important points in the city. The various routes and the streets crossed by each are: Route No. 1, Marietta and Decatur; No. 2, Ponce de Leon to Westview cemetery; No. 3, Nine-mile circuit via Edgewood; No. 4, Inman Park and West End; No. 5, Courtland avenue; No. 10, Peachtree street; No. 15, Battle Hill to Westview cemetery; No. 16, Marietta and Simpson streets to Georgia electric light plant; No. 17 Capitol avenue and West Peachtree.

A splendid schedule is run over all these routes, and the whole management is such as to give the best satisfaction to the public. The company now operates eighty-four electric cars and has built forty-three miles of track. It gives employment to 250 men in the operating department and 200 in the construction department. Thus it will be seen that the company is constantly extending its track facilities, and therefore continually adding to the value of Atlanta real estate.

The company is admirably officered by such men as Joel Hurt, president; Eugene Griffin, vice president; A. A. Gisher, secretary and treasurer; H. I. Bettis, assistant secretary and treasurer; M. R. McAdoo, superintendent. Mr. McAdoo, superintendent, is a splendidly equipped man, and the successful operation of this system, is largely due to his care, energy and ability.

It is no exaggeration to say that Atlanta has the finest electric railway system in the south, and the effect of the splendid service inaugurated by the management of the Consolidated company has been to make it the most phenomenal city in the extent of its area and the soundness of its values in all this section. There is not a foot of land within the radius of Atlanta's suburbs that has not been greatly enhanced in price by their lines that radiate in every direction.

So much for the breadth, enterprise and enthusiasm of one man.

Atlanta Home Insurance Company. Another enterprise that has felt the magnetism of Mr. Hurt's touch, is the At-

were opened, owing to the confidence of the people in the ability of Mr. Hurt and the gentlemen associated with him in the organization of this company.

By the close of the year of its organization \$500,000 had been paid into the company in cash, which represents the capital on which it is now doing business. The total premium income of the company is \$150,000, and the outlook for the future is very satisfactory. Its total assets represent about \$375,000, a large part of which is loaned on improved Atlanta real estate. The idea of the company is to place loans in such a way as to give the best encouragement to building activity.

The Underwriters have built up an immense business in Georgia, North and South Carolina, Alabama, Mississippi, Louisiana, Arkansas, Texas and Tennessee, and, in conjunction with the Atlanta Home, it is now operating extensively in the west, the area of its operations showing a steady and gratifying increase.

Its board of directors is composed of such conservative and substantial business spirits as S. M. Inman, A. D. Adair, Joel Hurt, Ernest Woodruff, J. W. English, T. J. Hightower, R. J. Lowry, C. W. Hunniford, H. T. Inman, J. R. Nutting, B. A. Demmock, W. A. Russell, and George Winship. The officers of the company are Joel Hurt, president and J. R. Nutting, secretary, to whose ability is largely due its phenomenal success.

## PHASES OF MODERN LIFE.

Two Students of Nature.

Professor Pickering in Christian Union.

Years ago, in Battletown, among the green hills of Vermont, lived a man who was worthily earning his living as a shoemaker. He was fairly successful in a business point of view, but when he had reached the age of twenty-five or forty, his health gave way. Going to New York to consult an eminent physician, he was shown into an anteroom, and was looking at some plants in the window when the doctor came in. Examining the case carefully, this wise physician said: "You do not need medicine. What you want is outdoor exercise and mental employment. I saw you looking at the flowers in the window. Are you interested in botany?" The shoemaker replied that he knew nothing about botany, but had always been fond of flowers. "Well," said the doctor, "go home and every day this summer go out into the woods and fields and gather one flower, bring it home and find out the name of it."

He at first felt a little as Naaman did as his prescription of washing in the river Jordan, but finally, like Naaman, took his prescription and began the study of botany. Soon he became deeply interested and in two or three years had collected nearly all the flowering plants of that vicinity. Having his attention called to mosses, he wrote Dr. Gray asking for some textbook upon that subject. This being before the days of "Gray's Manual"—that model of what the textbook should be—the only work Dr. Gray had to recommend was in German.

Nothing daunted, the shoemaker bought an "Oleander" and soon learned German enough to read his text-book. A while after a French book on the subject came in his way, he studied French until he could master the contents, and then took up Latin and Greek sufficiently to be able to trace

## In a Peck

of trouble—the woman who washes without *Pearline*. Her work is never done, and it's never done well. With *Pearline* she can do twice as much, and have it done better. There is little work, less wear, never the least harm. Try *Pearline*, and see it go for dirt; when you see dirt, go for *Pearline*.

Beware of cheap imitations. Paddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as" *Pearline*. IT'S FALSE! *Pearline* is never peddled, and if your grocer sends you something in place of *Pearline*, do the honest thing—send it back. 255 JAMES PYLE, N. Y.

## THE HOTEL ARAGON.

Atlanta's new and elegant hotel. The Aragon will be open and ready for the carnival season on Monday, November 13th.

It is situated on the most beautiful avenue and at the highest point in Atlanta, and is at the intersection of the business with the residence portion of the city. It is about five minutes' walk from the Union depot, into and from which all trains arrive and depart. The new opera house, which is larger and more elegantly appointed than any other theater in the city, is in the same block. The Episcopal cathedral and other prominent churches, Young Men's Christian Association and the general postoffice are in the immediate vicinity, and it is in fact the most central location in the city. The hotel has been more than a year in the course of construction and is of the Spanish Renaissance style of architecture. It is six stories high and has a frontage of 104 feet on Peachtree street and 100 feet on Ellis street. The first story is of Georgia marble and the five other stories are pressed brick and terra cotta, with marble trimmings. Half of the third story will be used as a roof garden, where plants and flowers will be given for the guests of the hotel. The main entrance to the hotel is on Peachtree street and is a large and handsome affair. The entrance is flanked by two large columns and is reached by a wide flight of steps. The interior of the hotel is finished in the most elegant and comfortable manner. The main hall is a large and airy room, with a high ceiling and large windows. The rooms are large and comfortable, with private bathrooms and all the modern conveniences. The hotel is equipped with all the latest appliances, including electric lights, heat, and ventilation. The hotel is managed by Mr. R. E. Tice, who will endeavor to make it the finest hotel in the south.

floor. This room is 40x60, and finished in the most elegant manner. It is equipped with all the latest appliances, including electric lights, heat, and ventilation. The hotel is managed by Mr. R. E. Tice, who will endeavor to make it the finest hotel in the south.

are nickel plated. This work will stand the most rigid examination. Steel beams have been used all through the house, with Acme cement for plastering. All walls are of hard brick with fire tile between joists, making the hotel practically fire proof. There are 15,000 square feet of octagon tile in the basement and kitchen.

### THE LEGISLATURE.

A Resolution of Congratulation to the Country Adopted.

A HAPPY LOT OF LEGISLATORS.

They Have All Come Back to Make Laws for the Dear People—Some of the New Bills Read.

The Georgia legislators were nearly all in their seats yesterday morning when the rolls were called and the prayers of the morning were offered in the house and senate.

It was a happy set of fellows, too, that gathered at the sound of the gavel, and when the clerk had read the last journal in the house, Brother Ham, of the county of Hall, the irrepressible humorist and stump speaker arose with a happy air and unanimous consent to offer a resolution for the adoption. Consent was granted and the gentleman from Hall sent the document to the clerk's desk.

The resolution read as follows: Whereas, This general assembly, realizing the magnitude of the great issues submitted to the judgment of the grand jury of the American people at the election on the 8th day of November, did, on the 5th instant, adjourn by joint resolution for four days that the members might return to their homes and only vote by mail for the great cause of tariff reform, houses government and free elections, and congratulate the gallant standard-bearers of democracy, Governor Cleveland and Adlai E. Stevenson, to their election to the high office to which they have been chosen with a unanimity that proves them the choice of the people of a reunited country of peace and liberty loving Americans, who step out the section line and restores the union of the nation in fact as well as in name.

Of course it was passed by an overwhelming vote. Anything that Brother Ham of Hall, introduces before the house of a political nature always passes for the members have that faith in his judgment on this line, that they take it for granted that whatever he says must be right. They know that Ham, of Hall, with his knowledge of Georgia politics, his clear-cut democracy and his well defined description of a "snollygoster," is just the man to frame resolutions of congratulations to the country at large and Governor Cleveland in particular. Therefore, it was unnecessary for Ham to say one word to urge the adoption of such a resolution as he put before the house quoted above.

The State's Finances. Among the first bills to flop upon the clerk's desk was the general tax bill for the next two years.

It came from the fingers of Judge John H. Hall, chairman of the committee on finance. Of course, the figures were left blank in the bill naming the tax rate and the amount to be levied, since that will not be known until the general appropriation bill has been fixed and the amounts to be given out are determined by the house and senate.

The appropriation bill was framed by Judge Hall several days ago and has already been read for the first time in the house. In it the amounts were left blank until the appropriations have been agreed upon by the house.

The tax bill and the appropriation bill will engage the attention of the house committee at its earliest possible convenience.

Judge Hall called a meeting of the committee yesterday afternoon and it was formally organized. But little business was done, acted because all the members were not at the meeting and because it was the first time the committee has held a session.

Judge Ham has no framed and submitted the general bill providing for the sustenance of the state sinking fund. It was read the first time in the house yesterday.

To Keep Our Children. At last, there seems to be good prospects for the state of Georgia to have a state board of health.

A well written bill looking to this end was introduced into the house yesterday by Colonel Mereson, of Glynn. The bill is quite a lengthy one and has every detail outlined for the establishment of a first-class organization of this nature. The need of a state board of health is no recent development, and it is really a wonder that the state has not long ago taken such a step. Colonel Mereson stipulates in his bill that the board shall be governed by a president and a number of competent physicians shall be under his control. They shall be ready at all times to take such steps as may be necessary to prevent the spread of contagious diseases in the state, such as smallpox, cholera and all other dangerous maladies.

They shall be paid \$15 per day for their services when called away to the infected precincts, and shall keep the governor posted as to the spread of such diseases when they are once prevalent. There seems to be quite a sentiment of favor among the members of the legislature for the passage of the bill. The warning that has been given by many prominent physicians of this country and Europe that the Asiatic cholera has only gone to sleep during the winter months to awake in the spring and summer and sweep the face of the earth, will have much to do with strengthening the claims Colonel Mereson sets forth in his bill.

The Middle Georgia College. Baldwin's representative in the house has certainly been doing good work in the legislature for his section and city. He put a bill in the house yesterday proposing the granting of a certain portion of the land around the old state capital at Milledgeville to the city of Milledgeville upon which the city council has been building a college for the Middle Georgia Agricultural and Military college. It seems that the attendance at the college has been so steadily increasing lately that there is no room for the cadets and this step is taken to supply them with comfortable quarters. Mr. Howard, the author of the bill, says it will be a great advantage to the college and will be in no way a loss to the state, since the land is already used by the college by legal provision as a campus. The city of Milledgeville agrees to build the handsome barracks on the ground and to make them comfortable for the cadets.

Our County Commissioners. The much talked of system of electing county commissioners in Fulton county came up for a showing in the house yesterday.

Eon. E. W. Martin, one of the able representatives from this county, had the bill read the first time. It stipulates an amendment to the law passed by the last legislature to have the commissioners elected by the grand jury of the county and to give the privilege of submitting their election to the qualified voters of the county. Of course, those members of the commission now in power will not be touched by the law, but hereafter when a vacancy occurs it shall be filled by having the popular election and not by the grand jury appointing them. On this issue Mr. Martin based his candidacy for the legislature. Indeed all three of the members of the house from Fulton pledged themselves to work for the repeal of this law instead of allowing the grand jury to go on electing the county commissioners. Mr. Martin also introduced a bill providing for the appropriation of \$2,500 for paying one third of the cost of paving the streets around the capitol with asphalt.

For the Teachers' Relief. The teachers of the state have made much complaint about not getting their pay promptly. This has called for many efforts

at legislation to manage to have enough money in the state treasury to pay them. But little business was done, acting till the close of the year when the tax collectors make a report. Up to the present time, however, nothing has been done.

Yesterday Mr. McDonald, of Gwinnett, introduced a bill to require that the first half of the rental of the state road be given to the school fund. The bill provides that the money in the treasury to pay the teachers at least a part of their money before the term is wound to a close. The law already allows this money to the school fund and the bill of Mr. McDonald simply intends to make it the first half of the rental and not the last half.

No More 8 Per Cent Interest. Mr. Pike, of Jackson, has a bill before the house which seeks to make it unlawful in Georgia to charge more than 7 per cent interest. The law at present states that 7 per cent is the legal rate but that it is frequently overruled by contracts in which it is agreed by the borrower to pay more than 7 percent. This bill, if it becomes a law, will make such a contract unlawful. It will limit the limit contract or no contract.

No More Lynching. Mr. Battle, of Muscogee, puts in a bill to make the punishment for the crime of rape and murder by hanging. He stipulates that such a crime shall be punished with death. If the jury should recommend mercy then the judge can make it penitentiary for life.

This bill has inspired no doubt with the motive that prompted Governor Northern in his message to urge upon the legislature to pass some wholesome law that will keep down mob violence in all such cases as these.

No More Throwing Rocks. Mr. Cumming, of Richmond, has framed a bill and placed it on first reading in the house to make the courts of the state deal with persons convicted of throwing rocks at death should be by hanging. The bill provides that if a person is convicted of throwing a stone at a person, he shall be punished by death. The punishment shall be death on the scaffold.

Routine in the House. Fleming of Richmond—An invitation from the ladies of the Atlanta First Baptist church to the members of the legislature to attend a concert to be given by the Atlanta Military band for the benefit of the poor.

Dennard of Houston—A resolution to authorize the governor to draw a warrant on the state treasurer for money to pay back the county of Houston the money it paid to the state by mistake for county taxation on railroads.

Allen of Upson—A bill to allow managers of election precincts \$2 per day for their services, said money to be paid out of the county treasury.

Hodges of Bibb—A bill to make it unlawful for any one to be appointed to a position in a court who is related to the judge nearer than fourth degree.

Morton of Clarke—A bill to amend the act establishing the city court of Athens.

Thomas of Coweta—A bill to make Marietta a state depository.

King of Fulton—A bill to allow judges to appoint a special bailiff in cities of more than 70,000 population.

The Senate. Nearly all the senators were back in their seats yesterday morning when President Clay called them to order. They all felt good at the result of the election and they were in fine spirits for work. But there was not much for them to do. The house bills have not begun to reach them yet and they soon get through their own routine.

Contempt of Court. Mr. Dennard introduced a bill which, if it had been the law years ago might have saved Steve Ryan from jail. It provides that in cases where parties are charged with contempt of court in failing to turn over at the order of the court money sup-

posed to be in their possession, they shall have a jury trial.

The amendment which was proposed by Mr. Dennard says:

The power of the several courts of law and equity in this state to issue attachments and writs of habeas corpus for contempt of court shall not extend to any cases except the misbehavior of any person or persons in the presence of the said courts or so near thereto as to obstruct the administration of justice, the misbehavior of any of the officers of said courts in their official capacities and the disobedience of respectance by any officer of said courts, party, witness or other person or persons to any lawful writ, process, order, rule, decree or command of said courts. The law already allows this money to the school fund and the bill of Mr. McDonald simply intends to make it the first half of the rental and not the last half.

To Protect Third Parties. Mr. Corput introduced a bill enacting that as against the interests of third parties in good faith and without notice, whether by a lien upon the property, a binding upon the defendant's property, no money judgment obtained in any court of this state or United States court within this state shall have a lien upon the property of the defendant until the execution is returned by the court. The bill provides that the lien shall take effect as against such third parties only from the date of such return.

Senator Wright's bill to repeal the board of the equalization tax law was reported favorably.

This bill is now ready for its third reading. Mr. Wright says that he thinks it will pass the senate easily. There will be a fight in the house, though, over the repeal of the law.

Local Option. Mr. Dennard introduced a bill to prevent local option elections occurring oftener than once in four years. The bill provides that no matter which way the election goes, whether for or against prohibition, there shall not be another election on the question in the same county for four years. Under the present law elections can be held every two years.

A bill to encourage educational facilities was returned by the general judiciary committee with recommendation that it be referred to the committee on education and the bill was so disposed of.

A bill which had been introduced by Senator Edwards of the twenty-seventh to amend section 4083 of the code of Georgia was unfavorably reported by the general judiciary committee and on a vote was lost. The senate adjourned until 10 o'clock this morning.

Legislative Notes. "If I were a senator I would introduce a resolution thanking God for the tremendous majority, and I am not a church member either," said Colonel Bill Harris, secretary of the senate yesterday. "The hand of providence is in this upheaval, and no mistake."

The legislative investigation of the charges against Judge Guber, of the Blue Ridge circuit, will begin next Monday night. Both the senate and house committees met yesterday afternoon and organized. They elected a stenographer and sergeant-at-arms. Mr. Wooten is chairman of the senate committee and Mr. Howard, of Baldwin, of the house committee. Notice has been given to Mr. Glenn and Mr. Madam, the signers of the memorial to the general assembly asking for an investigation. Judge Guber will be represented by Cap-

tain W. D. Ellis, of Atlanta; Robert Berber, of Forsyth, and Solicitor General George Brown, of the Blue Ridge circuit. Attorney General Terrell will represent the state.

The democrats of Blue Ridge, Fannin county, had on their war paint Wednesday. They thought at one time they were in for a real fight and they did not stop celebrating to avoid it. In the campaign in which Allen Candler beat Thad Pickett, the democratic campaign committee of the ninth offered a handsome banner to the county which would give the largest majority considering the republican vote. Fannin, which was a republican county, gave Candler a big majority, and the banner was presented to the democrats of that county. Ever since, the banner has remained folded up. Wednesday, when it became apparent that Cleveland had a glorious victory, the democrats of Fannin decided to get out that banner. It was found and unfolded. On one side was a picture of Cleveland and on the reverse was a portrait of Candler. The democrats said that they would put it up on top of the depot. Some republicans declared that they would shoot the banner full of holes if it was placed on the station. The democrats retorted that there would be some holes shot through anybody who fired at that banner. Both factions went off to arm themselves. The democrats put the banner upon the building and it floated there all day without a single hot being fired at it.

Ham—the only Ham—Ham the inimitable, was in his seat in the legislature yesterday, looking cool, clean, smooth shaven and imperturbable as though there had not been an election in twenty years. He evidently contented himself with going off in a quiet place and chucking to himself over the great victory he had done so much to bring about. He participated in the jubilee business. Consequently his clear blue eye shone with its cheerful humorous twinkling undimmed by the red evidence of hilarious joy that marked so many of the fine United States of the other boys.

"Yes" said he in reply to a question.

"It is a great victory, but I was prepared for it, and expected it."

"And everywhere you spoke they seem to have increased their usual majority."

"Oh, but," modestly replied the "snolly" congressman, "they would have done anyhow. I only helped the boys to have a little more fun while they were at it, that was all."

But Ham is feeling good all the same, and the house put through with a whoop his congratulatory resolutions reported elsewhere.

The Richmond boys went wild over our Ham when he was there last week. He was winned and dined, and given a great ovation, and the Richmond papers of Sunday were full of him. They did not forget him when the great victory was won either. The day after the election he received the following telegram from the president of the Commercial Travelers' Democratic Club, under whose auspices he delivered his great speech at Mount Hall on Saturday night:

"Where were you when the cyclone hit us. Carried the city by largest majority ever given. Acc'd. W. H. WEISSEGER."

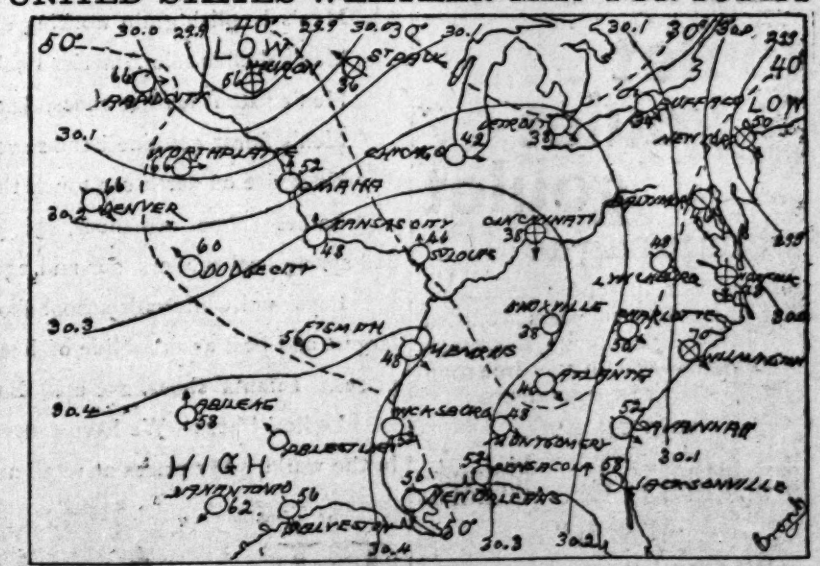

### Cures Scrofula

Mrs. E. J. Rowell, Medford, Mass., says her mother has been cured of Scrofula by the use of S.S.S. After having had much other treatment, and being told to go to a low country of health, as it was thought she could not live.

INHERITED SCROFULA. S.S.S. Cured my little boy of hereditary Scrofula, which appeared all over his face. For a year I had given up all hope of his recovery, when finally I was induced to use S.S.S. A few bottles cured him, and he is now a healthy child. Mrs. T. L. MATTHEWS, Medford, Mass.

Our book on Blood and Skin Diseases, SWIFT SPECIFIC CO., Atlanta, Ga.

### UNITED STATES WEATHER MAP FOR TODAY

The weather symbols on the map are as follows: CLEAR, FAIR, CLOUDY, RAIN, SNOW.

Arrows show the direction of the wind. Dotted lines traverse regions of equal temperature. Figures at the ends show the degree of heat. Unbroken lines traverse regions of equal barometric pressure. Figures at the ends of an unbroken line, as 29.5, 30.0, 30.5, etc., show that the air along the line is high enough to balance that many inches of mercury. Areas of high pressure are accompanied by a clear atmosphere, and "fog" by a moist air, clouds and rain.

Light rainfalls were reported yesterday all along the immediate Atlantic coast, the heaviest of which was .42 of an inch at New York city. Fair weather prevailed in all other portions of the country. Temperatures yesterday remained low during the entire day in all portions of the country, except the northwest. Freezing weather was reported yesterday morning so far south as Tennessee, and will probably extend this morning over the greater portion of Georgia, Alabama and other southern states. For Georgia today: Fair, slightly warmer, except stationary temperature near the coast.

## We Don't

Know why the others sell good Watches so much higher than we do. Perhaps they don't buy right; perhaps they want a larger profit; or perhaps their expenses are greater. However it doesn't matter why it is so long as it is.

## NORTH ATLANTA.

Wonderful Growth of a Pretty Section  
of the Gate City.

NEW STREETS. NEW RESIDENCES, ETC.

What the Peters Land Company Is Doing  
for Home-Builders—Many New  
and Handsome Residences.

There is perhaps no more desirable residence section in this city than north Atlanta. That portion of the city has, in the recent past, been developing in a most remarkable manner, so much so that people who desire to build homes are turning in large numbers in that direction, and many are the pretty and handsome new residences which have been lately built in that part of the city.

This great improvement has doubtless been the result of a wise policy adopted by the Peters Land Company, in withholding the large property they own there from the hands of speculators and seeking to place it in the hands of those who wish to build homes in one of the most desirable sections of the city. The Peters Land Company owns a considerable property in that portion of the city and they have recently been doing much towards its development and improvement.

Among those who have recently erected elegant residences on Ponce de Leon avenue are Dr. Hobbs, H. M. Atkinson, George May and others.

Mrs. Henry W. Grady has just let a contract for building a handsome mansion at the corner of Ponce de Leon avenue and Juniper street.

On Piedmont avenue among the many new and handsome residences which have lately gone up may be mentioned those of Dr. Nicolson, Mrs. Crane, Mr. Bancker, Mr. Torrence, Judge Lumpkin and Mr. James L. Logan.

In addition to those above mentioned Mr. W. E. McElvin has just given out a contract for a pretty residence modeled on Queen Anne design.

Piedmont avenue has lately been very much improved by paving and putting in gas, water and sewerage systems.

In Spring street Mrs. Black, Messrs. Mays, Porter, Gilbert, Bates, Holliday and others have also recently built attractive houses.

The extension of the street car service out West Peachtree street has resulted in the building of many new homes in that vicinity, and has caused many other valuable improvements to be created there.

The opening up of Hemphill avenue has made a wonderful change in the neighborhood of the School of Technology and is the cause of many new and beautiful residences being built. The laying of water mains, gas facilities and a perfect sewerage system afford many advantages.

It Never Fails.

From The Pittsburgh Chronicle.

"Do you see that gentleman sitting opposite?" said one gentleman in a cable car to his next neighbor.

"Yes."

"I can make him pull his watch out of his pocket and consult the time, without saying a word to him."

"You know him perhaps and have it arranged that he shall do so on a certain signal from you."

"No, I never saw him before in my life."

"Well, then, I don't believe you can do it."

"I have \$5 to say I can."

"It's a bet, is it?"

"It is."

The other man waited a few moments, until the glance of the man referred to fell on him, and then, with much deliberation, drew forth his watch and looked at it.

The man across the aisle saw the movement, and instantly lifted his own watch from his vest pocket.

The man who had bet he wouldn't hand his five dollar bill over without a word, and as the other took it he remarked:

"It never fails. Look at your own watch and it's as catching as yawning. Try it yourself on somebody."

Many prominent citizens and officials recommend Dr. Bull's Cough Syrup.

Not one in twenty are free from some little ailment caused by irritation of the liver.

Carter's Little Liver Pills. The result will be a pleasant surprise. They give positive relief.

## ELECTROPOISE "VICTORY."

MADE BY DR. H. SANCHE, THE INVENTOR.

CURES ALL DISEASE WITHOUT MEDICINE.

Mr. Alex. Beck, Agent of Dr. Sanche's Electropoise Victory.

ATLANTA, GA., JULY 25, 1892.

DEAR SIR: It is with pleasure that I add my testimony to the great benefit derived by my family from the use of the Electropoise "Victory." I first applied it to my wife, who had typhoid fever. In forty hours the fever was broken and there was no more symptoms of the fever afterwards. Then immediately following there were three other members of my family stricken down with fever, and in every instance the fever was broken by the prompt application of the Electropoise "Victory" in a shorter space than the first, and without the aid of other remedies or medicines. We have used it for various other minor ailments with marked success. I would not part with it for ten times the cost of it. Yours truly,  
J. K. F. CARLTON, 196 Crew street.

Beware of imitations. None genuine without Dr. Sanche's name is stamped thereon.

BECK & BACON, State Agents, 36 Grant Bldg., ATLANTA, GA.

## PLACE TO BUY SPECTACLES.

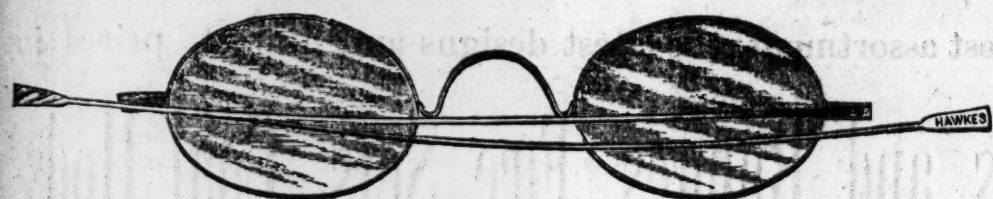

Is where it is known that fine Glasses are properly fitted to the eyes, and framed in a neat substantial way to fit the face perfectly.

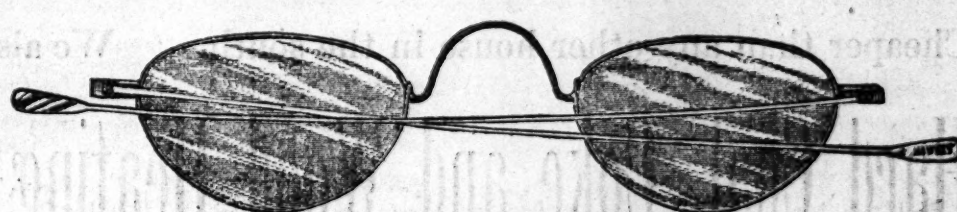

A. K. HAWKES, MANUFACTURING OPTICIAN,

Proprietor of Hawkes' crystallized lenses, established over twenty-two years ago, has since he began business always been recognized as absolutely certain to give the very best obtainable in the optical line. His Spectacles, long since famous in some states, are now a familiar name throughout a section of country inhabited by twenty-five millions of people, and are sold to the public through the medium of over two thousand merchants.

2,000 MERCHANTS.

THE RETAIL SALESROOM IN ATLANTA IS AT NO. 12 WHITEHALL STREET.

All of the latest and best improvements in Spectacles and Eye-Glasses are kept up with, and especial care is taken by the practical Opticians in attendance that each customer shall have the correct Glasses and Frame. THIS IS GUARANTEED.

**NO CHARGE IS MADE FOR TESTING EYE-GLASSES.**

Repairing done in first-class style—one of our specialties. Oculists' prescriptions accurately filled and guaranteed. The surface and edged of Lenses are ground in our factory here, and special work is delivered usually within twenty-four hours after order is received.

**OTHER OPTICAL GOODS.** A choice selection is shown of Opera, Field and Spy Glasses, Telescopes, Thermometers, Barometers, Hydrometers, Microscopes, etc. Chatelaine Cases, Lorgnettes, Opera Glass Bags and Holders. Special prices for a few days. We have a limited number of Opera Glasses in leather at \$2, worth \$4; Opera Glasses pearl at \$4, worth \$7. They are fine. Call and examine. Spectacles and Eye-Glasses are mailed to any part of the United States and a fit guaranteed.

**CAUTION.**—The public is warned against the many imitations and frauds who convey the impression that they represent and have for sale the Hawk's Crystallized Lenses when such is not the case. I do not employ nor sell to peddlers and my glasses cannot be bought at residences. Hawkes' Crystallized Lenses are guaranteed absolutely perfect, and free from defects, even by Microscopic Examination.

The most critical inspection of them is invited, and the question of their purity will be gladly referred to any glass expert. Prices reasonable. All work guaranteed.

A. K. HAWKES, Manufacturing Optician, 12 Whitehall Street.

## IT KEEPS UP.

There is No Reaction and Everything is  
Lovely.

OHIO IS CERTAINLY DEMOCRATIC.

And So Is California—This Thing Is  
Actually Getting Unanimous.

HOW THE NEW CONGRESS WILL STAND

Interesting Gossip About Its Speaker-  
ship—Vacancies That Exist in the  
Departments.

The following is a brief compilation of  
the latest returns as showing the present  
situation:

Cleveland has carried the entire south,  
Connecticut, Illinois, Indiana, five elec-  
toral votes in Michigan, New Jersey, New  
York, Wisconsin, California and Ohio, giving  
him a total of 300 electoral votes.

Harrison has carried Iowa, Maine, Mas-  
sachusetts, eight electoral votes in Michi-  
gan, Minnesota, Montana, New Hamp-  
shire, North Dakota, Oregon, Pennsylv-  
ania, Rhode Island, Vermont, Washing-  
ton and Wyoming, giving him a total of  
112 electoral votes.

Weaver carried Colorado, Idaho, Kan-  
sas, Nebraska, Nevada and South Dak-  
ota, a total of 32 electoral votes.

The house of representatives will have  
100 democratic majority and the senate  
will be controlled by the democrats and  
the Farmers' Alliance.

The senate.

From returns up to date the senate  
will stand forty-two democrats, forty-one  
republicans and five people's party.

The democratic gain senators in New  
York, Wisconsin and California.

The fusionists get senators from Kan-  
sas, Nebraska and Nevada.

Wyoming is in doubt. It is possible  
it may be third party.

The house.

The fact that the house has a demo-  
cratic majority of nearly one hundred is  
of especial interest to Georgia. It means  
the re-election of Charles F. Crisp as  
speaker. The indications are that he will  
have no opposition for re-election but will  
go in by the unanimous vote of the demo-  
crats.

### AN EXTRA SESSION.

Why It Is Needed—Interesting Gossip From  
the National Capital.

Washington, November 10.—The strong  
probability of an extra session of con-  
gress, immediately following the inaugura-  
tion of the president-elect, is the sub-  
ject of general conversation in Washing-  
ton today. A special session of the senate  
is always called at the beginning of the  
new administration to confirm the mem-  
bers of the cabinet and the new diplo-  
matic representatives of the United States  
abroad. But the present election  
having turned on questions of domestic  
policy it is said to be obvious to experi-  
enced political leaders of all parties that  
an extra session of both houses of con-  
gress will almost inevitably result.

Secretary of the Treasury Foster, among  
others admits this. The country, he  
says, challenged the judgment of the  
republicans on the McKinley bill, and the  
result must be accepted as the will of  
the people that a different policy shall  
be put into effect.

Ex-Secretary Bayard writes to a friend  
here to like effect, adding that the people  
will expect this to be done without un-  
necessary delay.

At the White House.

Private Secretary Harford has resumed  
his duties at the white house. He arrived  
in Washington this morning from Indian-  
apolis. He frankly admitted his surprise  
and disappointment at the result of the  
election and says he gave up all hope for  
the republican ticket when he first learned  
of the heavy democratic majority in Chi-  
cago and New York City.

The president did not have very many  
letters today, received scarcely any  
private advice on the subject of the elec-  
tion. He has accepted the result in a most  
philosophical manner, and is said to at-  
tribute his failure to hear from party man-  
agers as a clear indication that they have  
nothing encouraging to communicate.

Nobody Wants Them.

There are a number of vacancies in the  
higher offices of the executive departments  
of the government and the problem of fill-  
ing them has been considerably complicated  
by the result of the recent election. These  
positions are outside of the civil service  
law and regulations and are looked upon  
as the legitimate patronage of the party in  
power. Under the present administration  
all these places are or have been filled by  
men of the republican political faith as  
during the last administration they were  
filled by democrats. It is expected, of  
course, that when the administration  
changes on March 4th next, the party in  
power will be changed, and that a perma-  
nent change will be made. In view of that  
fact the vacancies now existing cannot be  
regarded as altogether desirable prizes, as in  
about three months the appointees would,  
no doubt, be expected to step down and  
out. It will be necessary, however, in order  
that public business may be properly car-  
ried on, that some of these vacancies be  
filled at once. Although there has been no  
lack of applicants, yet it is doubtful whether  
any large proportion of them would now  
be willing to accept places which they must  
soon surrender, and in making such an  
appointment President Harrison will prob-  
ably find that the office must seek the man,  
and not the man the office, which will be  
something of a novelty in his political ex-  
perience.

In the Departments.

In the postoffice department there is only  
one vacancy in the higher offices and that  
is the office of first assistant postmaster  
general. Colonel Whitfield's resignation  
went into effect nearly a month ago and  
since that time Mr. Fowler, chief clerk of  
the office, has been acting first assistant.  
Under the law an acting first assistant can  
serve only thirty days, after which a per-  
manent appointment must be made, if the  
vacancy is filled at all. Messrs. Fowler and  
Bell, second assistant postmaster general,  
have been mentioned for the place, but Mr.  
Wanamaker, it is said, has not yet fully  
decided whom he will recommend, but he  
will presumably take some action soon.

In the interior department there is also one  
important vacancy, that of commissioner  
of the general land office, now being tempo-  
rarily filled by Assistant Commissioner  
Stone. It has been suggested that Mr. Car-  
ter might be induced to return and serve  
until March 4th, but this is quite improb-  
able.

It is assumed that the heads of all bureaus

of the departments will be replaced by dem-  
ocrats soon after the 4th of March, and  
these with a hundred or more chiefs of di-  
vision, chief clerks and others outside of  
the civil service will constitute the main  
patronage at the disposal of the democratic  
party in the government service in Washing-  
ton.

In the war and navy departments there  
are no vacancies in any of the important  
offices.

The same is true of the department of  
state proper, but there are several diplomatic  
places vacant, which are usually most en-  
doring to would-be office holders, but may  
now go begging. Some of these places are  
ministries of a high order, such as the  
Italian mission, the Russian mission, the  
Portuguese mission, the Swiss mission and  
finally the Chinese mission. In all these  
cases but the last the republican incum-  
bents have resigned.

The Chinese Mission.

In the case of the Chinese mission, owing  
to Mr. Blair's resignation, the place is still  
filled by Minister Denby, a hold over from  
the last democratic administration, who,  
therefore, appears to be safe to continue  
at his post for four more years unless Pres-  
ident Harrison should determine to make a  
change before the 4th of March, which is  
improbable. There are practically now two  
vacancies in the important offices of as-  
sistant secretary of the treasury, as Mr.  
Nettelbladt's resignation will take effect next  
month and Mr. Crouse, who ran as the  
republican candidate for governor of Nebras-  
ka, has likewise resigned from the treasury.

In the department of justice there will be  
a vacancy after the very end of the year.  
General Miller having signified his intention of  
resigning, but it is not yet known whether  
this action will be taken as soon as to re-  
quire the president to make a cabinet ap-  
pointment before the 4th of March.

The Supreme Bench.

The president will also have four vacan-  
cies on the bench to fill between now and  
the 4th of March. These are United States  
judgeships in the circuit courts of appeal  
and are really the most alluring prizes remain-  
ing within the gift of the administration.

Colonel Hepburn, who has just been  
elected to congress from the eighth dis-  
trict of Iowa, will probably retain his  
present office as solicitor of the treasury  
until March 4th.

Today's analysis of the congressional  
election returns shows that with returns  
missing from twenty districts in which the  
result is either entirely unknown or is very  
close, the democrats have elected to seats  
in the house of representatives for the  
fifty-third congress eighty-eight more rep-  
resentatives than the republicans. The ma-  
jority does not include nine members-elect  
who are classified as either fusionists or  
third party men, nearly every one of whom  
will act with the democrats in any pro-  
posed reduction of tariff taxes. Their sup-  
port, with additional strength the demo-  
crats are certain to derive from some of  
some of the twenty districts yet in the un-  
known column, make it conservative to  
estimate that the democrats will have a  
majority of one hundred members or more  
on the most important question likely to  
come before the next house of representa-  
tives, viz: The revision of the McKinley  
tariff law. A number of fusionists are  
also thoroughly in accord with the demo-  
cratic policy as far as it goes on all other  
questions. For instance, Mr. McLaurin, of  
Illinois, and Messrs. Reeves and Bell, of  
Colorado, who are in general accord with  
the democratic platform save that on the  
currency question. The first named has  
alliance ideas and the two last named  
are radical free coinage men. Three out  
of five of the fusionists elected in Kansas  
are also simply democrats, of whom  
may be called the radical  
wing of the party. Leaving out the twenty  
unknown districts the next house will con-  
sist of 207 democrats, 120 republicans and  
nine fusionists or third party men.

An analysis by sections of the vote Tues-  
day for congressmen shows that the demo-  
cratic majority in the house of representa-  
tives is made up of the following states—  
Maryland, Missouri and Kentucky,  
being included in this category—will  
send 117 democrats, only four republicans  
and one alliance democrat, Mr. Mc-  
Laurin, of South Carolina, to the next  
house of four districts, two in West Vir-  
ginia and one each in Kentucky and Mis-  
souri. Of the four republican con-  
gressmen returned two come from Tennes-  
see and one each from Kentucky and  
Missouri.

The only apparent result of the fight  
made against democracy in the south was  
to strengthen its hold on party affairs.

In North Carolina Cheatham, a colored  
republican, is defeated after surviving the  
landslide of two years ago, and in Alabama  
a solid democratic delegation is returned,  
notwithstanding the efforts of Magee and  
others to split.

Of New England's twenty-seven votes in  
the next house the republicans get eleven  
and the democrats six. Three coming from  
Massachusetts and three from Connecticut.  
The second New Hampshire district is plac-  
ed in the doubtful column. The four mid-  
dle states—New York, Pennsylvania, New  
Jersey and Delaware—have seventy-three  
votes in the house, of which number the  
republicans will cast thirty-nine and the  
democrats thirty-four. Fifty-six congress-  
men will be returned from the middle west-  
ern states—Ohio, Indiana and Illinois. Ac-  
cording to the returns the democrats will  
represent thirty-two of the districts, the re-  
publicans twenty-three, and one, the six-  
teenth Ohio, at present represented by Mr.  
Pearson, a democrat, said to be exceedingly  
close. Although this is the only doubtful  
district named in the press dispatches from  
these states, experience warrants the be-  
lief that other districts will be found to  
be doubtful as the official count progresses,  
several districts being always up and down  
between the two parties. The states of  
the northwest and the agricultural west,  
beyond the Mississippi river, will send  
twenty-nine republicans, fourteen democrats  
and five fusionists to represent it in the  
next house, with two districts from Nebraska  
in doubt and the entire seven from Minnesota  
placed in the same column for the lack  
of information as to the successful candi-  
date.

The republicans stand the best chance of  
securing a majority from the nine unknown  
districts. Five fusionists come from Kan-  
sas. It is said that with the exception of  
Davis and Baker, the fusionists are in-  
clined towards democracy.

The silver states of Idaho, Montana, Wy-  
oming, Nevada and Colorado split even  
on the congressional election, three republi-  
cans coming from the three states first  
named and three republicans from the two  
latter states. New Lands, of Nevada, how-  
ever, is inclined towards republicanism.

The Pacific coast is entitled to eleven con-  
gressmen. Washington and Oregon each  
will send two republicans and California  
will send four democrats and perhaps  
more, three districts being close between  
the two old parties.

Later returns place Kansas' vote for con-  
gressmen much in doubt, and also place

in doubt the fifth North Carolina district,  
it being asserted that equal positions will  
be held by different correspondents, that it has  
fallen to the democrats and to the republicans.

The Judiciary.

The judiciary is the only branch of the  
government which will remain under the  
control of the republican party after the  
4th of March. The United States judges  
are appointed for life, subject to the privi-  
lege of voluntary retirement, and fail pay  
after reaching the age of seventy years,  
provided they have been ten years in ser-  
vice. District and circuit judges are, as a  
rule, republicans and it is unlikely that there  
will be a sufficient number of vacancies dur-  
ing the next four years to enable Mr.  
Cleveland, by new appointments, to give  
the democratic party a majority on the  
supreme court. Nor is there any probability  
that the next administration will have an  
opportunity to make the United States su-  
preme court democratic. As this is a  
court of final resort on all questions of con-  
stitutional or federal law the political pre-  
dictions of its justices may, at any time,  
become a matter of importance through the  
freedom of court from influence by and  
consideration extraneous to legal points at  
issue in any case before it is conceded. The  
places on the supreme bench which it is  
most likely Mr. Cleveland will have an op-  
portunity to fill—if there be any vacancies  
at all—are at present occupied by dem-  
ocrats, Justices Field and Lamar. Chief  
Justice Fuller is the only justice who is  
not a republican, and except Justice Blatch-  
ford, none of them are within five years  
of the age at which they may retire at full  
pay. Justice Blatchford is in vigorous  
health and as he likes his work he is in  
no hurry to take advantage of the opportu-  
nity the law affords him, he having served  
nearly ten years last spring. The other five  
members of the court, viz: Justices Harlan,  
Gray, Brown, Brewer and Shiras are men  
hardly past middle age and so far as ap-  
pearances go are each good for a decade  
of service yet.

ALL WELL IN OHIO.

The Commercial Gazette Shows That We  
Have Won.

Cincinnati, O., November 10.—The exact  
result of the election in Ohio for presi-  
dential electors is not yet known, but it is  
now known that the official count is  
completed, which will not be before  
next Monday or Tuesday.

It seems to be almost certain that Tay-  
lor, democrat, has been elected secretary  
of state by about 700 plurality, and  
Cleveland's plurality in Ohio is estimated  
to be about 500, although the republicans con-  
tinue to claim the state both on electors  
and state officers. The democrats are on  
their guard, and have sent twenty men to  
each county where there is likely to be  
some close contest.

The election of Pearson, democrat, in  
the seventeenth district, by a majority  
of 192 is tonight conceded by his republi-  
can opponent, making the delegation  
stand eleven democrats and ten republicans.

The Commercial Gazette's Last Figures.

Cincinnati, O., November 10.—The Com-  
mercial Gazette's last figures compared  
official and semi-official returns from eighty-  
one counties in Ohio and conservative esti-  
mates of the other seven counties. The  
democratic plurality in Ohio is at 478.  
In some parts of Ohio republican computers  
seem to have been figuring for Hamilton  
county on Taylor's plurality for secretary of  
state. The republicans' estimate of Taylor's  
round numbers ahead of Harrison in  
Hamilton county.

JIM CAMPBELL AND JIM NEIL.

How The Two Shrewd Managers Carried the  
Ohio Campaign.

Washington, November 10.—(Special.)—  
Paralyzed is the only word that comes  
near describing the condition of the re-  
publicans here after they realized tonight  
that Ohio had actually been carried for  
Cleveland. And they feel even worse,  
because it is possible when they learn how  
the democratic committee effected this  
magnificent result.

It was one of the cleverest and most  
definitely executed pieces of political strategy  
in the history of American politics.

About two weeks ago, the democratic  
national committee became alarmed at the  
outlook in Virginia and Connecticut.  
Knowing the desperate efforts the republic-  
ans were making to carry those close  
states, the democratic managers decided  
that for safety's sake, something must be  
done to make up for the possible loss of  
their twelve electoral votes, and Governor  
Campbell, of Ohio, who was in New York  
at the time, was called into consultation.

He told the democratic managers he be-  
lieved Ohio could be carried for Cleveland  
by a still hunt if a proper amount of money  
could be put into the state, but he said he  
would not drive the experiment unless it  
could be done without depriving other more  
hopeful states of all the funds necessary  
to defray the legitimate expenses of a  
vigorous campaign.

Colonel Jim Neil, who was chairman of  
the Ohio democratic committee in Camp-  
bell's campaign for governor, was then tele-  
graphed to come to New York from Ohio.  
When Neil arrived, he coincided with Gov-  
ernor Campbell's views as to Ohio. He  
felt confident the state could be carried if  
a pretty little hunt was undertaken and the  
funds to do so were forthcoming.

The national committee decided to try  
the experiment, and when Mr. Neil returned  
to Ohio, he carried \$60,000 with him.  
The plan was not to pay any attention to  
the large cities and to let the state go  
by default on the surface; but in the run-  
up to the election, the republicans, pledged  
to the strictest secrecy as to their plans,  
were to be kept in the dark, as to what  
was going on. For this reason, the re-  
publicans were made aware of the scheme,  
and as a consequence it was carried out  
successfully to the utter amazement of all  
republicans and most democrats.

While the republican farmers on election  
day pegged away at corn husking, coun-  
tying the state would give its usual republi-  
can majority, democratic farmers were  
hustled to do the polls and got in their  
Cleveland ballots.

Roger Between Two Fires.

Astin, Tex., November 10.—Cleveland's ma-  
jority in Texas is not yet known, but it is  
now known that the official count is com-  
pleted, which will not be before next Mon-  
day or Tuesday.

It seems to be almost certain that Tay-  
lor, democrat, has been elected secretary  
of state by about 700 plurality, and  
Cleveland's plurality in Ohio is estimated  
to be about 500, although the republicans con-

## SPEAKER CRISP

Is Naturally Happy Over the Victory of  
His Party.

HE TALKS ABOUT THE RESULT,  
And About the Effect It Will Have  
on Legislation.

HE HOPES FOR SENATE AND HOUSE

In Order that the Democratic Party May  
Be a Factor in the Control of the  
Legislation of the Country.

America, Ga., November 10.—(Special.)  
It is safe to say that no democrat in  
this broad land felt a deeper or more sin-  
cere interest in Tuesday's battle of bal-  
lots than Speaker Crisp. Since returning  
from the north, Judge Crisp has not been  
well; but he watched the returns closely,  
and with keen satisfaction. I asked him  
today for an expression on the result.

He said:

"The election of Cleveland and Stevenson  
by so large a majority brings happiness to  
millions of American people. It demon-  
strates the omnipotence of honesty. All the  
vast fund contributed by the monopolists  
and tariff barons of the country for the  
purpose of electing a party of frauds, has  
been ineffectual, and the plain, prac-  
tical, independent people of the United States  
have asserted their rights and again taken  
control of their government. The defeat of  
Harrison removes a dark cloud from one  
horizon. The threat of the force bill has  
been removed, and the country is free to  
develop its commerce, capital, and industry  
timid, would not seek investment in the  
south when there was the prospect of the  
passage of a law which would disturb and  
disrupt existing conditions here. Cleveland's  
election dispels this cloud and we may now  
hope for restoration of confidence and a  
renewal of business prosperity.

# THE GREAT RALLY. GEORGIA'S WEALTH

That is What Mr. Woodward's Friends Say About Him.

IT HAS LOST HIM MANY VOTES

The Gentleman's Absence from the Polls When His Vote Was Needed Was Freely Discussed Yesterday.

Mr. Woodward's failure to vote in the presidential election Tuesday was all the talk of the town yesterday.

And judging by that talk Mr. Woodward has many warm supporters in his race for the majority. Not one of his warmest admirers would dare to make an excuse for the candidate's neglect to vote.

Wherever a group of politicians could be found during the day a discussion of the gentleman's not voting could be heard. And there were many groups on the street throughout the day.

Among the gentlemen who pass away the day on Capitol Hill laboring for the good of the state and spend the evenings in the hotel lobbies talking about what they have done and what they are going to do, the question was discussed quite freely.

It was then discussed by politicians who make their daily bread out of politics, by men who never fail to vote when they have the opportunity. By the votes of their supporters they go in, and then they never forget that it is a duty they owe those who they make laws to vote for the candidate they think will do the best for his people.

A State Senator Talks.

"I'm a servant of the people," said a prominent and well-known state senator yesterday, "and I have never failed to feel thankful to those who voted for me in any election. It's the greatest privilege an American citizen can have. I think, and I can't imagine why any one should doubt himself from the polls at any time. I certainly should not be induced to do so, especially since I must rely upon the votes of the people to sustain me. As I understand the Woodward matter, he was not a candidate for mayor, and is asking the people to vote for him as president. I'm told, too, that he lives in a ward that was thought to be unacceptably close for the democrats. He goes before the world as a democrat and yet he failed to go out and vote for the man the very people he mingled with wanted elected. I can't see any reason a man can assign for any such conduct, unless it is the fear that he might drive away a republican, a prohibitionist, or a third party man. If that's the case then the people of Atlanta ought to turn out and bury him without end. If he wants the citizens of Atlanta to come out and vote for him for mayor, he certainly ought to turn out and vote when it looks like his vote will do good. It's a lucky man who can get what he asks for in this world and give nothing in return. That seems to be Mr. Woodward's plan."

Mr. Woodward's ears must have burned pretty hot yesterday if there's anything in the story that one of his ears always burn when he is being talked about. All along the streets he and his failure to vote were discussed.

Several Opinions.

"I can't see," said Mr. Shropshire, "what Woodward could be thinking about. I've not voted and never thought that every man in Atlanta hadn't done the same thing. I looked upon it as a duty I owed my state, my constituency, myself and my family. I am certain that Mr. Woodward has lost a great big vote by not coming out and doing his duty."

"I am surprised," said Colonel R. F. Maddox, the banker, "that his coat Woodward many a vote. The truth is, if I were in his place I would come out of the race. I can't see any good he can do by staying in. I couldn't vote for him now under any circumstances. A man wouldn't vote Tuesday don't deserve a vote from any one."

"I can't see what Mr. Woodward meant by it," said Mr. M. C. Kiser. "He certainly ought to have voted."

Then Mr. Kiser, Mr. Woodward has had no warmer or more enthusiastic supporter. Another gentleman who has been as warm for Mr. Woodward as Mr. W. D. Smith, the well-known Democrat street grocer, who said: "I can't stand this."

It wasn't much Mr. Smith said, but it was the way he said it.

And so it was all over town.

A Singular Incident.

On Tuesday night when the whole city was wild over the good news indicating the election of Mr. Cleveland, a prominent personage came up into The Constitution editorial room.

"Let me give you a pointer," he whispered. "What is it?" he was asked.

"John B. Goodwin lost a thousand votes today."

"Why?"

"That was the response, 'he voted today. We had the candidates spotted and Goodwin voted.'"

It was not known what significance there was in this remark until next day, when it became public that Goodwin had voted his convictions, and that Mr. Woodward, for all his life, had been "too busy" to vote, although the salvation of the country depended upon the performance of that duty by its citizens.

PLEADING FOR LIFE.

Horrible Scenes at a Railroad Wreck in Iowa.

Ottumwa, Iowa, November 10.—A fearful catastrophe occurred on the Chicago, Milwaukee and St. Paul road last night, at Milwaukee Center, a small station north of the city. A fast freight train dived into the caboose of a local freight train standing on the track, telescoping the caboose and four cars. The caboose caught fire. Four people were burned alive and a number of others had narrow escapes.

The caboose was split by a car of grain, wedging in four people on the right side. The most pitiful case was Miss Lizzie Butler, of this city, who got her head out of a window and pleaded with those about to save her, but her body was plumed by a freight car and it was impossible to extricate her.

Mrs. Jones, also of this city, tried to escape through a window, but she was an unusually large woman and could not succeed. The other victims were unknown—a woman and an unknown man. The latter is thought to be a butcher at Oklawaha, Fla. The injured are Mrs. Clyde Willis and Mrs. Pickett, of this city, and Miss Lizzie Butler, of Sigourney. They are badly burned.

A curious incident was that of one of the passengers was disguised in the crash the disguise came off, revealing a man. He quickly disappeared in the excitement.

They Stop Exchanging.

The Central and the Atlanta and West Point train accepting each other tickets between Atlanta and East Point on November 10th. It has been customary for a long time for the roads to accept each other's tickets. But the Central has given notice that it will stop doing this after November 10th. The Central's officials explained that they quit the interchange to save the work of adding the accounts.

Never Has Anything Been Seen Like

Before.

EVERY PREPARATION IS IN HAND

A Full List of Speakers—The Grandest Torchlight Procession of the Campaign.

Atlanta has gone wild with the contemplation of the grand rally to be held next Tuesday night.

Never was the old city so wildly stirred with enthusiasm before and not soon will she be so wildly stirred again.

It is the firm determination of those who have in hand the management of the affair to make it by far the most splendid thing of its kind ever witnessed in a southern city.

And to judge from the way in which they have begun to prepare for it no one will attempt to say they will not succeed in their purpose. The two thoroughly organized democratic clubs, the Fulton county democratic club and the young men's democratic league have gone to work hand in hand and heart to heart to make this rally a royal one in every sense of the term. They mean business and have gone about it in a business-like way.

There was a meeting yesterday in the office of Mr. James Austin, president of the young men's democratic club, at which a committee was appointed to confer with the county executive committee for the purpose of securing the full co-operation of that organization in the work of arranging the details of the grand rally. At this meeting there were all the members of the executive committee.

Messrs. Fulton Colville, James Austin and Burton Smith were appointed to the Fulton county executive committee.

They immediately went to the office of Mr. Morris Brandon, chairman of the executive committee, and there had a business meeting lasting an hour.

Messrs. Brandon, Tom Corrigan and L. Z. Rosser were appointed to join the other club in whatever is necessary to make the occasion all that it ought to be and all that it must be.

This joint committee will have under its charge the whole affair and will lose no time and spare no effort in the preparation of the programme for the evening.

The work has been divided among the young men as follows:

Mr. Tom Corrigan will have charge of the parade, having been made the grand marshal of the night with full power to get up all the boys in the state that can be brought here and marshal them into line.

Messrs. Colville and Arnold Broyles will have the work of collecting all the fire works to be used in the night and to get up all the boys in the state that can be brought here and marshal them into line.

Mr. Austin was appointed a committee of one on finance. Mr. Brandon on arrangements and Mr. Colville on securing the co-operation of all citizens and all visitors to make this rally in the name of the south and not simply in the name of Georgia and the city of Atlanta.

Special excursion trains will be run from all points within a hundred miles of Atlanta and the people for miles around will be here in the night. All the railroads in the south are put in charge of the state geologist as he is usually best equipped with scientific information and training to undertake the matter.

The speakers to be introduced to the thousands that night will be the following:

Hon. J. B. Black.  
Hon. Charles E. Crisp.  
Hon. H. G. Turner.  
Hon. W. D. Smith.  
Hon. Hoke Smith.  
Senator John B. Gordon.  
Senator A. H. Colquitt.  
Hon. Clark Howell.  
Hon. W. D. Ellis.  
Hon. W. D. Rosser.

There will be ten or fifteen thousand democrats in line with torches and fireworks and they will be reviewed by the governor and his staff at the arsenal well.

After the parade and the review the speaking will take place in the rotunda of the state house.

Everything goes the night of the 15th.

THROUGH THE STATE

There is Great Rejoicing Everywhere Over the Wonderful Victory.

All Georgia will come to Atlanta to join in the celebration next Tuesday, but it is not likely that a great mass of jollification in other cities and towns.

Tonight the democrats of the tenth, assisted by brethren from other parts of the state, will take their turn at it.

Harmony Grove celebrated last night with a big parade.

Brunswick had a great time yesterday and last night. Three thousand people, headed by Frank Deshon and his opera company, paraded the street. There were great bonfires, cannon boomed, and enthusiastic democrats spoke where they could be heard. Champagne is flowing like water and fireworks are flying everywhere. One of the sensational incidents of the evening was the destruction of a \$700 landau in which Mayor Lamb, Alderman Leach, Clerk Nelson and Mr. J. Christian Lehman were riding. They had a landau full of fireworks. By some means the entire lot caught on fire, burning the landau and four silk hats belonging to the passengers. The man in the crowd led the landau bazaar description and several blocks were covered before their flight stopped.

Two thousand democrats held a rousing jubilee at Elberton last night. Judge George C. Thomas, of Athens, was among the speakers.

Albany took her celebration in grand style last night. There was a big torchlight procession and any amount of enthusiasm.

Business was practically suspended in Hawkinsville yesterday, everybody joining in the jubilation.

Thomasville was painted a lurid big last night. The neighboring towns sent big delegations.

Cuthbert celebrated with a torchlight procession and booming of anvils.

Down at Emory College the boys let loose their pent up enthusiasm by speeches and a parade.

At Shady Dale three third party orators were burned in effigy.

Marietta celebrated on Wednesday and will do so again tonight; but all the boys will be down here on Tuesday. Savannah and Columbus will celebrate on Tuesday.

A SUB-RECEIVER.

Chancellor Foster Appoints One for a Central Line.

Montgomery, Ala., November 10.—It was made known today that on October 29th, Foster, of this city, was appointed receiver of the Mobile and Girard, a part of the Central railway of Georgia, extending from Columbus, Ga., to Seawright, this city. The appointment was made by Chancellor Foster on a bill filed by a stockholder.

Should Certainly Be Exhibited at the

World's Fair.

A VERY INTERESTING COMMUNICATION

Which Will Appeal to the Patriotism of Every Georgian—The Chief of the Mineral Department Talks.

Chicago, Ill. U. S. A., November 7, 1892. Exposition Grounds.—Hon. Ervan P. Howell, Editor Atlanta Constitution: Since our conversation recently at the Auditorium hotel, I have given considerable thought to the subject we then discussed concerning a display of the mineral resources of your state at the Columbian exposition. The regret I then expressed that Georgia seemingly was to have no representation at the world's fair, that the world was to go away from it unlightened as to her varied and extensive resources and industries, has been further intensified by the knowledge of two facts.

First, that so many of your neighboring states, and states intersected by the same mineral belts of the Appalachian region, will display their mineral resources at the exposition. Second, that the citizens of your state, as indicated through mineral exhibits heretofore made by them, are fully informed of the abundance of the material at hand for the mineral display.

I will not go further into detail for the subjects than to say that thirty-five states—the mineral producing states of the union—are planning valuable and attractive displays, and among the number are to be reckoned Virginia, West Virginia, Maryland, Kentucky, North Carolina, Florida, and to some extent, South Carolina. The list included herewith of the minerals and ores of Georgia and their localities is so abundant evidence that the state can make an interesting and showy display of her mineral resources.

This joint committee will have under its charge the whole affair and will lose no time and spare no effort in the preparation of the programme for the evening.

The work has been divided among the young men as follows:

Mr. Tom Corrigan will have charge of the parade, having been made the grand marshal of the night with full power to get up all the boys in the state that can be brought here and marshal them into line.

A SUB-RECEIVER.

Chancellor Foster Appoints One for a Central Line.

Montgomery, Ala., November 10.—It was made known today that on October 29th, Foster, of this city, was appointed receiver of the Mobile and Girard, a part of the Central railway of Georgia, extending from Columbus, Ga., to Seawright, this city. The appointment was made by Chancellor Foster on a bill filed by a stockholder.

The receiver has not yet taken possession of the route because of the want of stock, all of which is in the hands of Receiver Comer, of the Central railroad of Georgia. Comer is now in the hands of officers of the United States court here to be served on Comer to show cause why he should not be removed from his position as receiver. The hearing is set for November 14th. Mr. Comer is here.

The Belgium Demonstrations.

Brussels, November 10.—There was a big libidine demonstration here last night at the Alhambra theater, fully 3,500 being present. M. Janson and other liberal deputies made speeches, violently attacking the government. At the conclusion of the meeting the liberals marched toward the palace, preceded by a red flag. Arriving at Rue Montargis, the procession was charged by a detachment of gendarmes, and artillery and civic guards summoned to protect the palace and ministerial department buildings. The paraders were separated into two portions and were finally dispersed at about midnight amid howlings and hoofings and cries of "Long live universal suffrage."

5. CARLSBAD CHINA, almost as good as French china, in plain white, consisting of 12 plates each, dinner, breakfast, tea, soup, preserve and butter plates; 1 soup tureen, 1 sauce

## THE CARNIVAL

Will Draw Great Crowds of People to Atlanta.

### THE GENTLEMEN WHO MADE IT

Will Give Their Time to Making the Visitors Happy—What the People Will See.

It is interesting to note, in view of the splendid dimensions attained by the carnival, the manner in which the enterprise was first inaugurated and who were the prime movers.

Every one who has read the newspapers during the last two months has no doubt observed the growth of the movement and watched with peculiar interest the steps which its leaders have taken in bringing the enterprise to its present magnitude.

It was expected from the very beginning that the carnival would be in every respect a magnificent and brilliant demonstration. The men who started the movement were the principal actors in the rebuilding of Atlanta's financial and mercantile prosperity, and having assumed the role not only

dorsed in its every inception than the idea of the carnival and it seemed to constitute a common ground on which every citizen, no matter how divergent their views in regard to other expedients, might stand in the advocacy of one cause, and co-operate with each other as one community of aim and purpose.

Such unanimity of action Atlanta has never before known in her history and not only

COLONEL W. L. CALHOUN,  
Military Director.

for the approaching carnival does it pledge a brilliant fruition of their labors but it pledges for the city a radiant era of concord and development.

Well, the citizens met at the Kimball house at the time appointed and among the gentlemen present were Colonel W. O. Waddell, president of the state agricultural society; E. P. Chamberlain, M. C. Kiser, H. H. Cabaniss, Charles E. Kiser, E. C. Peters, J. T. Cooper, J. H. Fear, C. W. Appler, Joseph Kingsbery, J. W. White, Captain J. H. Morgan, Grant Wilkins, R. G. Griffin, T. D. Black, E. E. Block, G. W. Parrott, E. P. Black, M. Rich and Colonel Joe Thompson.

They constituted a dignified and sedate body of men, though from the very start they displayed an unwonted amount of enthusiasm. Every detail in connection with the carnival was carefully weighed and discussed and the result of that meeting was that Atlanta should certainly have a carnival.

They meant by a carnival, of course, that Atlanta should open her gates and invite the world to enter therein for the purpose of witnessing the splendid aggregation of her resources which she expected to prepare against their coming.

It was to be in other words a regular "trades display"—that is a representation of the different enterprises showing the magnitude and the result of that meeting was that Atlanta should certainly have a carnival.

They realized that a small or inferior carnival would be a failure and that the carnival would reach to such a degree of popularity as that which characterizes the movement today.

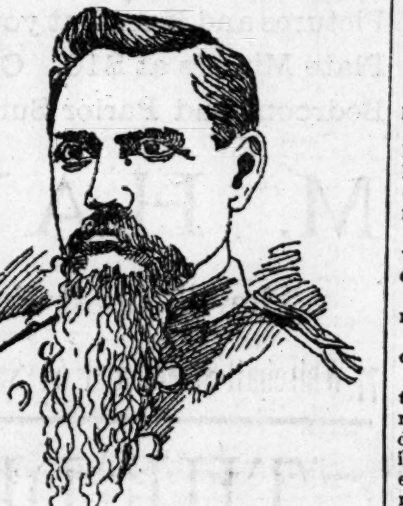

The original ideas which were entertained by the committee have grown to a considerable enlargement since they were first discussed in the meeting of prominent business men just two months ago.

They have also trebled the amount of money which they first considered sufficient to carry out the ends of the carnival and to make its street parade the most magnificent display of her resources ever known in the history of the city.

It now appears from the indications which have been received from every part of the Piedmont section that Atlanta will entertain as many as 50,000 strangers within her gates.

She has made arrangements, however, to accommodate as many as come and no one should entertain any fears as to being put out or subjected to any inconvenience during their stay in the city.

But to return to the origin of the carnival. The first meeting was held to debate the matter and consider the advisability of getting up a grand display of Atlanta's re-

A. J. WEST,  
Chief Marshal.

pageant was worse than no pageant at all, and that unless the display of her resources was pitched upon a high plan and fashioned after a grand idea, it was useless to waste their time or sacrifice their labor in getting up a carnival.

They each realized the necessity, therefore, of making the carnival a pronounced success and each of the members present avowed his intention to work for the carnival and to make its success or failure a matter of his own responsibility.

It was agreed that the carnival should eclipse the display of any southern city, and not only set forth the superior claim of Atlanta, but at the same time substantially complementing the zeal and the enterprise of its leaders in bringing it to such a happy consummation.

The officers elected at that meeting were: Committee on rules and regulations, E. P. Chamberlain, M. C. Kiser, H. H. Cabaniss, Charles E. Kiser, E. C. Peters, J. T. Cooper, J. H. Fear, C. W. Appler, Joseph Kingsbery, J. W. White, Captain J. H. Morgan, Grant Wilkins, R. G. Griffin, T. D. Black, E. E. Block, G. W. Parrott, E. P. Black, M. Rich and Colonel Joe Thompson, M. C. Kiser and J. H. Fear.

Four thousand dollars as a "starter" only was raised within a very few minutes and each of the members agreed to circulate

in costume will ride on the floats, and give a singular and remarkable appearance.

Mr. J. J. Faber, the photographer, has a float, which is a work of high art. It is composed of different views of southern scenery, and is one of the best and most excellently arranged of all the floats in the pageant.

The Trio steam factory has three magnificent floats representing its business. Pretty girls in rich attire will ride on the floats and scatter gifts to the populace.

Mr. Joe Jacobs will have a handsome float representing his business. It is a large red S on either side, as well as the words "Coca-Cola" and "Beverage".

These three floats will be exceedingly unique and will attract an unusual amount of attention, but the Central's built that way, you know, and she never does anything in a "half-hearted" manner.

Atlanta's big shows. The Gate City's First Fair was Many Years Ago, Before the War.

Almost from the date of her birth Atlanta has been giving shows which have attracted

people from all parts of the state, and at times from all over the south.

Within the last few years Atlanta's shows have been the best in the country and have drawn people from all sections of the world. They have been taken as models by other towns and cities of the union and many of Atlanta's productions have been bodily reproduced.

Atlanta's show-giving career began as early as 1842. In those days there were no horse racing at fairs because even then horse racing was looked upon as a great sin. People had not been able to separate gambling from the desire of stock raisers to improve the strain of stock.

The first show or fair as it was then called was given on a big lot on Fair street, the lot which is now occupied by the Fair street school house. The grounds were large and well arranged, but the race track was not there. The buildings were all good and were constructed with a view to comfort. In them were arranged in the most inviting manner all the products of the country.

Cotton was displayed and along side of it were corn, potatoes, beans, onions, goobers, and in fact everything that the soil of the county would produce. The agricultural displays were complete and attracted the attention of all.

In those days the best ladies in the land were more in the habit of working than they are today. The first fair presented a display of the handicraft that would be of great interest to their daughters if it could be brought out again. All kinds of needle

work were on exhibition and in the display the ladies took the liveliest interest. Side by side the homemade rag carpet and the dainty lace made by the same hand that had woven the carpet, and in them the men who had plowed the corn and the cotton were pleased.

The pig stall was always filled with the biggest, fattest hog the farm could produce, while the coops contained the biggest cock and the fastest laying hen.

In those days Georgia corn was very near living at home, much nearer than she does now. Then very little money went away from home for western meat and flour and the people were decidedly better off.

From '42 the fairs were held every year on the Fair street lot up to the time the war began. Some time in '43 or '44 the work was enlarged and the state fair was held in Atlanta. That was about the same as the shows that preceded it only it was much larger. For several years the state fair remained in Atlanta, but in the fifties some time it was removed to Athens. Mr. Waring was the president of the association and was the resident of Athens.

After the state fair went to Athens the people of Fulton continued to give their shows every year and they never failed to draw and to draw well.

"I was marshal in those days," said Uncle Ben Willford, the public weigher, "and I can just say Atlanta never had any better shows than those we gave then. We always had big crowds and they were

the best people of the country. We didn't have any horse racing, but we had the best of everything the land could produce. And when the old planters would get together they would have a royal time of it. I have seen them ride a hundred miles to get here to the fairs. They'd come in style too, I tell you. The best carriage they had would be drawn by four horses. They would fetch their saddlers along and with them enough negroes to take care of everything. The ladies would fetch their servants along too, and the time, the town would be crowded. Those were good old times and I'd like to go through them again. But it's all gone now, and we'll never have anything more like it, I'm sorry to say."

During the war there were no fairs in Atlanta and for several years after the war Atlanta contented herself with the fairs in other towns. Along in the early seventies, however, some gentlemen got together and organized the Oglethorpe park association. By popular subscription and by an appropriation of the city council the old Oglethorpe park was bought and the fair was started. The first fair was a grand success. People who had never been in Atlanta before came to it in great numbers, and racing races were introduced and quickly became popular. No open betting was permitted, but everybody had a right to buy pools, which were sold openly and without any opposition. Some of the best and fleetest horses were brought to Atlanta and it

was the appearance of being on the track as it rolls along the street. It will be named "Nancy Hanker" and will be fired up before the procession starts. In the cab, with their engine lamps, will be the engineer and fireman, and as the engine moves along, with smoke rolling from her stack, many will look and wonder how such a perfect imitation of an engine could be made.

The next float will be in the shape of a passenger coach. It will be twenty-five feet long and will be modeled after one of the elegant coaches now in use upon the Central. On the outside will be the regular lettering of the road in gilt, which will show up very handsomely against the Tuscan red color of the coach.

On the inside, seats will be arranged and occupied by a number of young ladies, who can be plainly seen, as the coach will be brilliantly illuminated. It is now being built at the shops of the Central in Macon.

The third float will be a freight car, modeled after the new freight boxes just out on the road. It is now being built in Macon, and will be twenty feet long. It is to be painted in blue colors and will have a large red S on either side, as well as the words "Coca-Cola" and "Beverage".

These three floats will be exceedingly unique and will attract an unusual amount of attention, but the Central's built that way, you know, and she never does anything in a "half-hearted" manner.

In those days Georgia corn was very near living at home, much nearer than she does now. Then very little money went away from home for western meat and flour and the people were decidedly better off.

From '42 the fairs were held every year on the Fair street lot up to the time the war began. Some time in '43 or '44 the work was enlarged and the state fair was held in Atlanta. That was about the same as the shows that preceded it only it was much larger. For several years the state fair remained in Atlanta, but in the fifties some time it was removed to Athens. Mr. Waring was the president of the association and was the resident of Athens.

After the state fair went to Athens the people of Fulton continued to give their shows every year and they never failed to draw and to draw well.

"I was marshal in those days," said Uncle Ben Willford, the public weigher, "and I can just say Atlanta never had any better shows than those we gave then. We always had big crowds and they were

the best people of the country. We didn't have any horse racing, but we had the best of everything the land could produce. And when the old planters would get together they would have a royal time of it. I have seen them ride a hundred miles to get here to the fairs. They'd come in style too, I tell you. The best carriage they had would be drawn by four horses. They would fetch their saddlers along and with them enough negroes to take care of everything. The ladies would fetch their servants along too, and the time, the town would be crowded. Those were good old times and I'd like to go through them again. But it's all gone now, and we'll never have anything more like it, I'm sorry to say."

During the war there were no fairs in Atlanta and for several years after the war Atlanta contented herself with the fairs in other towns. Along in the early seventies, however, some gentlemen got together and organized the Oglethorpe park association. By popular subscription and by an appropriation of the city council the old Oglethorpe park was bought and the fair was started. The first fair was a grand success. People who had never been in Atlanta before came to it in great numbers, and racing races were introduced and quickly became popular. No open betting was permitted, but everybody had a right to buy pools, which were sold openly and without any opposition. Some of the best and fleetest horses were brought to Atlanta and it

was the appearance of being on the track as it rolls along the street. It will be named "Nancy Hanker" and will be fired up before the procession starts. In the cab, with their engine lamps, will be the engineer and fireman, and as the engine moves along, with smoke rolling from her stack, many will look and wonder how such a perfect imitation of an engine could be made.

The next float will be in the shape of a passenger coach. It will be twenty-five feet long and will be modeled after one of the elegant coaches now in use upon the Central. On the outside will be the regular lettering of the road in gilt, which will show up very handsomely against the Tuscan red color of the coach.

On the inside, seats will be arranged and occupied by a number of young ladies, who can be plainly seen, as the coach will be brilliantly illuminated. It is now being built at the shops of the Central in Macon.

The third float will be a freight car, modeled after the new freight boxes just out on the road. It is now being built in Macon, and will be twenty feet long. It is to be painted in blue colors and will have a large red S on either side, as well as the words "Coca-Cola" and "Beverage".

These three floats will be exceedingly unique and will attract an unusual amount of attention, but the Central's built that way, you know, and she never does anything in a "half-hearted" manner.

Atlanta's big shows. The Gate City's First Fair was Many Years Ago, Before the War.

Almost from the date of her birth Atlanta has been giving shows which have attracted

people from all parts of the state, and at times from all over the south.

Within the last few years Atlanta's shows have been the best in the country and have drawn people from all sections of the world. They have been taken as models by other towns and cities of the union and many of Atlanta's productions have been bodily reproduced.

Atlanta's show-giving career began as early as 1842. In those days there were no horse racing at fairs because even then horse racing was looked upon as a great sin. People had not been able to separate gambling from the desire of stock raisers to improve the strain of stock.

The first show or fair as it was then called was given on a big lot on Fair street, the lot which is now occupied by the Fair street school house. The grounds were large and well arranged, but the race track was not there. The buildings were all good and were constructed with a view to comfort. In them were arranged in the most inviting manner all the products of the country.

Cotton was displayed and along side of it were corn, potatoes, beans, onions, goobers, and in fact everything that the soil of the county would produce. The agricultural displays were complete and attracted the attention of all.

In those days the best ladies in the land were more in the habit of working than they are today. The first fair presented a display of the handicraft that would be of great interest to their daughters if it could be brought out again. All kinds of needle

work were on exhibition and in the display the ladies took the liveliest interest. Side by side the homemade rag carpet and the dainty lace made by the same hand that had woven the carpet, and in them the men who had plowed the corn and the cotton were pleased.

The pig stall was always filled with the biggest, fattest hog the farm could produce, while the coops contained the biggest cock and the fastest laying hen.

In those days Georgia corn was very near living at home, much nearer than she does now. Then very little money went away from home for western meat and flour and the people were decidedly better off.

anywhere and from that show Atlanta derived more benefit than from any other one thing she ever gave. It brought more than one permanent investor to Atlanta and from those who come to see the show Atlanta got more than one good citizen.

J. R. WYLIE.  
Confidential Adviser.

The year after the exposition the general council sold the park and building to the Cotton Exposition Mills Company and ever since that sale those mills have been one of Atlanta's greatest industries.

For several years after the sale of the park Atlanta was without a fair or a place to hold one. Along about 1885 the city council took the money which had been received from the sale of Oglethorpe park and with more bought the ground and created Piedmont park. Thousands of dollars were spent on the grounds and buildings and when the first show was given the great throngs that came were amazed at the work that had been done. The first fair was the highest success the south ever had. Mr. Cleveland was then president and with his bride came to Atlanta as the city's guest. Every one remembers the great rush there was. The hotels wouldn't sleep the people, neither would the

GEORGE W. HARRISON.  
Chairman Finance Committee.

restaurants feed them so great was the crowd. The next year the crowd was all the more so. Governor Flower and Senator Hill, of New York, were then the city's guests, with Hon. Pat Collins, of Boston. Every year the fair has been a success and it will always be so.

This year the gentlemen who have Atlanta's drawing cards in hand decided not to hold a big fair like those of the past few years but to eclipse them all with a great carnival.

And that carnival in many respects will be the greatest and most inviting show Atlanta has ever given.

### A WORLD CARNIVAL

Some Day the Whole World Will Join in One.

The memory of man hardly goes back to the time when the carnival was not. All people in all ages have given themselves over at times to feasting and jollification for victory in war, for bounteous crops or for special favors granted them by the gods.

Pedestrian man probably had his tribal celebration and all through the eras up to the present the savage and the civilized man have had their periodical festivals and merry makings. Literature has made us

S. W. WILKES.  
Chairman Programme Committee.

more familiar with the carnivals of the Italian cities than those of any other part of the world. Goethe spread himself on a description of the Roman carnival and he says that he could not do justice to it. Writing from the standpoint of a spectator and participant, too, he says that you could not tell which way the throngs in the corso were going, whether up or down and it was so from one end of the street to the other, and it was over so many thousand paces long. The thoroughfare was a sea of masks fantastic and diversified beyond description. Maidens and matrons mingled in the crowd and disported themselves at their pleasure.

Goethe gives an entertaining account and he has preserved for all time a graphic picture of the carnival. Hawthorne, in "The Marble Faun," draws another carnival picture, and so it is in all languages and all literature—some master hand has described these festivities.

But what pen will write the world's carnival—the delicious celebration in which all the inhabitants of the earth will participate in commemoration of some undreamed of event?

As carnivals have always been they will always be. And some day the whole globe will shut up shop, leave a holiday and have a universal celebration. It may be when the first embassy to the moon returns bringing back a delegation of lunatics to bring them what sort of a planet it is we live on. That will be about the time Colonel Sprad Eagle, perched on the state capitol, is drinking water from a pool at East Point and washing his tail feathers in the Chattahoochee. And Atlanta, being of all American

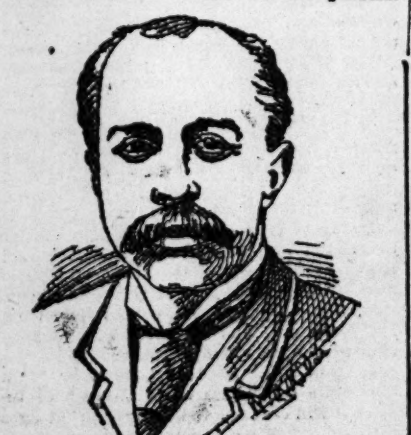

MR. BLACK.  
Chairman Carnival Committee.

cities with, perhaps, one exception, the nearest to the moon, would naturally be the place where the embassy would light. The carnival would be the proper thing on such an occasion. It would have to start off with a military parade, Captain John Milledge commanding, of course, and the line of march would be out Peachtree street. Atlanta's millions of citizens and visitors will be congregated there, not on the sidewalks but on

D. W. APPLE.  
Chairman Transportation Committee.

cupping cushioned seats in two gilded grand stands erected on the lawns on either side, spanning the cross streets and stretching unbroken for miles. The procession will pass under arches of rare architectural magnificence, between obelisks and towers and statues with splendid residences in the background.

Unnumbered school girls, perched high on tall lily, will, by means of ingenious mechanical devices, fill the air with a mist of delicate perfumes, while others will shower fragrant flowers on the passers.

F. M. AGOSTINI.  
Grand Visitor.

Every imaginable amusement will be provided—perhaps a long line of widows giving their dance and singing tarantulas one side the street, with harlequins, jugglers, acrobats and a King Solomon performance, with ballet on the other side.

The passing of the carnival will be the signal for the carnival proper to begin. Then the makers will swarm in from the side streets and everything will "go" as an electric signal will flash the word around the world that the fun has started and the bands can play.

Felding with candles less expensive than marshmallows, and flowers more common than orchids or American beauty roses, will be forbidden. Imagine this all over the world and every minute the fun growing faster and more furious and there you are with the universal carnival. Good-natured satires on the idiosyncrasies of nations will be a feature instructive as well as diverting to the visitors from the moon. For instance, the Chinese would probably have a scene representing an election in the tenth district, with the farmers voting their scarecrows out of their fields and the city people voting the cigar store Indians.

The Patagonians might satirize French duels and the Chileans could have sport out of a representation of the Russian

royal family on a picnic with a nihilistic Sunday school.

All the world would be the Americans' oyster in play of this kind.

A fit ending of such a gala week would be a bouffe of pyramid varieties, after the style of the one Savanorolo got up at the famous Florentine carnival, but on a scale a thousand times more huge.

### THEY MAY COME

Mr. and Mrs. Cleveland and Mr. and Mrs. Stevenson invited to the Carnival. President elect Cleveland and Mrs. Cleveland and Vice President elect Stevenson and Mrs. Stevenson have been invited to attend the Indian summer carnival.

C. N. KNIGHT.  
Of the Board of Transportation.

The invitations were sent them yesterday by President Thompson and Secretary Arnold.

In addition to the invitations sent Mr. Cleveland and Mr. Stevenson, the Carnival Company sent invitations to the governors and members of staff of Alabama, Mississippi, Florida, Texas, South Carolina, North Carolina, Tennessee, Virginia and West Virginia.

The letters to the president and vice president read:

Atlanta, Ga., November 10.—Hon. Grover Cleveland, President Elect of the United States: Greeting: At a meeting of the "Indian Summer Carnival" held today unanimous and enthusiastic action was taken in ordering the grand and magnificent celebration to be held on the glorious result of your election, and earnestly request you and your lady to attend this celebration at Grand Carnival ball on the 15th of November.

In discharging this pleasant duty let me assure you of the gratification that awaits you and your family in attending and hoping for the honor of your presence in this city.

JOSEPH THOMPSON, President.  
By CHARLES ARNOLD, Secretary.

The letters to the governors read:

Atlanta, Ga., November 10.—Greeting: This occasion herewith forwards to you

and your staff an invitation to visit us during Carnival week.

In honor of the election of Mr. Cleveland for president and Mr. Stevenson for vice president, the most noted democratic demonstration that has ever taken place in Georgia will be held on Tuesday night, the 15th inst.

The invitation, hearty as it is presented to you, means the rejoicing of democratic victory and the witnessing of a Carnival festival which in its splendor and magnificence will surpass anything ever seen in this south.

We trust and earnestly hope that you and your staff will accept our invitation to visit us and bring as many of your friends as you desire for an escort. Kindly forward me your reply early as possible. Yours very truly,

JOSEPH THOMPSON, President.  
By CHARLES ARNOLD, Secretary.

Sent to the governors of Alabama, Mississippi, Florida, Texas, South Carolina, North Carolina, Tennessee, Virginia, Kentucky and West Virginia.

World's Fair Souvenirs.

Editor Constitution—Many of our citizens I know will want specimens of the world's fair souvenirs or Columbian half dollars, but, unless those who want them take immediate steps to procure them, many will be disappointed, as the issue (which we all know is limited) is being rapidly drawn on by orders from all parts of the United States, and also from foreign countries.

The Treasurer, of November 7th, has the following:

The financial authorities have sought to prevent syndicates from cornering the sale, by supplying to business houses, banks or individuals as many as they desire, requiring only that orders must be for fifty or multiples of fifty, and accompanied by cash, at the rate of one dollar for each coin. It is probable that the coins will not be ready for distribution before December, but the orders are being sent in rapidly, and will be filled in the order received. Therefore it is important that all who receive orders put in their order at once, otherwise they will be too late.

Now, I want several of these mementos, and I feel that I am only one among a great many. This is the time to get them, and I will be glad to have any and all who want to help make up one or more clubs give their names and dollars to me. I will forward orders for every fifty club.

G. MED. NATHAN.

Methodist Missions.

Baltimore, November 10.—The general committee on missions of the Methodist Episcopal church having control of all home and foreign missionary enterprises are in annual session here. The committee has appropriated \$1,270,000 for missions in the coming year.

## GOSSIP OF SOCIETY.

And What is Going on in a Social Way.

### THE RECEPTION TO MISS PATILLO

Was the Large Event in Social Atlanta Yesterday—Gossip About Atlanta and Her Friends.

The reception given last evening by Mr. and Mrs. Patillo to their youngest daughter, Miss Mary Patillo, introduced in the most delightful manner one of the most attractive debutantes of the season.

The Patillo mansion is most happily arranged for entertaining and on this occasion the lofty apartments and stately corridors were decked with charming garlands and elegant. The long drawingroom on the right was adorned in yellow flowers to harmonize with the prevailing tones of the walls, hangings, etc. The flowers were chrysanthemums, large and fluffy as powder puffs and as delicately golden as a canary's breast. These nodded their dainty heads from beautiful bowls and vases placed upon the mantle and the telegraph their cordials to several rich bouquets of roses that graced an elegant stand of orange and gold.

It was in this drawing room that the pretty young debutante stood to receive her guests with her mother and Miss Louise DuBois, of Athens, her charming guest.

Miss Patillo is a dainty, vivacious girl with a charming rosy complexion and a face full of ever-varying expressions, and she was delightfully pretty last evening in an artistic little frock of pale green Chinese silk, trimmed with white chiffon and pearl beading. The bodice with its white puffs of chiffon over the green sleeves and its soft frills of the same about the round neck was artistically and becomingly contrasted with the white and green of the skirt.

Miss Patillo appeared in an elegant toilet of deep rose velvet and white satin, with green and trimmed with old rose satin, embossed with green velvet. The high puffs of the empire sleeves were formed of this elegant trimming and the bodice was finished with exquisite duchess lace.

The room opposite the long drawing room was made pink and fragrant by many La France roses and opening into this was a bright apartment where gathered the married folks for cozy chats. Here bright chrysanthemums and autumn leaves faunted their Indian summer bravely, and palms upturned the calm beauty of their graceful leaves.

The corridor and stairway was hung with ivy garlands, and the punch room was a pretty retreat, made bright by palms and ferns and flowers. The dining room was tastefully adorned in white flowers and feathery ferns producing a most charming effect. The table showed many roses gracefully arranged. The center piece being a bowl of bride roses placed upon an embroidered linen square over green satin. The white tapirs were held by superb gold and silver candlesticks and the effect was refined and lovely. Soft strains of music added to the pleasures of the evening which were many, for Mr. and Mrs. Patillo are noted for their delightful way of entertaining their friends.

Miss Patillo enters society with the brightest future before her. She is an unusually attractive young girl, clever, original and altogether lovely in a social way. She is sure to be one of the most popular buds of the season.

Miss Louise DuBois, of Athens, is the guest of Miss Mary Patillo on Crew street. Miss DuBois is a brilliant, pretty girl, distinctly brunette in coloring, with a complexion as rosy and soft as a peach and a dazzling pair of dark eyes enchantingly expressive. She is all and perfectly proportioned and indicates a delightful impression of youth and happiness. She is undoubtedly one of the most beautiful girls who have ever visited Atlanta.

Mrs. Joseph Raine and Miss Dora Raine have returned to the city and are boarding at the Kimball, where they will welcome their many friends.

Captain Harry Jackson is at the Okefenokee Swamp.

Mr. Cooper, of Philadelphia, is in the city the guest of Mr. Henry Luman.

Miss Evelyn Ausell will leave this month to be the guest of her aunt, Mrs. James Swann, in New York.

Miss Annie Denis of New Orleans, is the guest of Mrs. J. Edgar Hummel, on Spring street. Miss Denis has many warm friends and admirers here.

The grand concert which was to have been given at the Young Men's Christian Association hall last night by the Atlanta Military band was postponed until tonight and last night's tickets will be good for tonight.

The ladies have provided for the refreshments for all who attend without extra charge.

It is worth the admission alone to listen to the band. There was a very interesting programme, after which delicious refreshments, consisting of hot chocolate, nuts, cakes and all sorts of delicacies. These ladies have provided for the refreshments for all who attend without extra charge.

There was another of the many pleasant fortnightly meetings last night at the Unitarian church. Furnished in Plain and Fancy Cases, Oak, Ash, Burl Walnut, Circasion Walnut, Rosewood, Mahogany or Ebonized. This world-renowned Piano has stood the test of years and every climate. With our long experience in the Piano trade we cannot recommend it too highly. It is superior in tone, finish and workmanship, and is not exceedingly high in price. It has carried off the highest honors at the last Piedmont Exposition, receiving the premium for the best Grand and Upright Pianos. Remember, we give the best possible terms on all their Pianos. It is the Great Southern Favorite. The following is a partial list of our patrons who purchased this celebrated Piano from us, and we cheerfully refer to them as a well satisfied customer is the best advertisement:

## COUNTRY COUSINS.

They Will Be in Atlanta in Full Force

TO SEE THE CARNIVAL NEXT WEEK.

From All Parts of the State Comes Information That Atlanta Will Be Crowded After Monday.

Whenever Atlanta has a big attraction like the circus, an exposition, or a carnival, it is usually expected, of course, that our many country cousins who live in the out-of-the-way districts and small country villages will be thoughtful enough to pay us a visit.

Letters of invitation have gone out through the mails and by this time they have completely deluged the country. They have sprinkled the mountain regions of North Georgia with cordial and pressing invitations to come to the city and have even carried their greetings into the pine thickets and wiregrass regions of South Georgia.

On the other hand an almost infinite number of letters have been received from our "country cousins," who, waiving what they consider the mere formality of an invitation have pre-

talk and punches his mother under the table.

But many of the kindred will come to Atlanta for just a day.

They will come when things get lively and after another man has been and come back, who can tell them how he likes it.

Then the old father will gather together his sons and daughters and his worthy help-

meys and together they will roll over the country road in their big spring wagon.

They will bring their own baskets and will eat in their own little caravansary in order to escape the danger of being cheated out of their pocketbooks. Besides, they don't like to eat anybody else's cooking and they have heard that nothing is ever washed in Atlanta.

Not even the little dog who walks out of the yard without a collar or the male who drops dead in his tracks at the advance of three score years.

Atlanta will be crowded with visitors during the coming week, and every plantation within a dozen leagues of the city will be tributary to the multitude that will surge along her thoroughfares.

They will be given the keys and the hospitality of the city and no one can say that Atlanta is not proud of her "country cousins," or that she is not more than happy to have them within her gates.

Everything that can possibly amuse our friends from the country will be found in the city next week.

Time museums, popcorn balls, red lemonade, flying machines, toy pistols, ginger cake and soda water—in fact everything that can possibly be imagined will be found in Atlanta during the carnival.

Before the day is over our friends can call on the man who lives in the tent and have their pictures at a very small cost.

It will be a nice souvenir and the man who lives in the tent says he can take a dozen men as easily as he can one.

A man's whole family can set for their pic-

tures and they will only cost them a few pieces of silver.

Atlanta has a great many sights that our friends from the country will, no doubt, be pleased to see.

There is not in the land a finer building than the state capitol. They will all want to see that of course, since they have heard so much about it.

Many have an idea that the president stays in the state capitol, but that is not true. He stays in one just like it in Washington city.

The capitol of Georgia cost just a million dollars, and if each dollar was represented by a grain of corn it would take the little boy with "one gallus" several days to count it.

After the state capitol the next building will be the Equitable. That is the highest building in Atlanta, and is built entirely out of rock. It is seven stories high and stands at the top of a hill. It is also at the head of one of the longest streets in the city and one which stretches for more than two miles in a perfectly straight line.

Everybody has heard of peachtree street and

## OUR COUNTRY COUSINS.

supposed the pleasure that a visit from them would arouse and have simply added a postscript to their letters notifying their uncle's family of their intended visit and asking them to "put their names in the pot."

For several weeks the villages have been astir and the breezes that have circulated among the mountain homesteads have listened to strange whispers.

"What dress are you going to wear to the carnival?" is the question that one of the country lasses puts to her listener as she leans on the stile with her dimples smiling out from her rosy cheeks.

"If you wear the red dress, but it can't be the shine off of that pea green calico that pa bought for me the other day on Decatur street. Decatur street, you know, is the big-

gest street in Atlanta, and that's where we get all our fashion plates. You just know, and with that Samantha grabs her pitcher and plunges out into the dust up the road.

Everybody in the country for weeks and weeks has been looking forward to the carnival.

"Pa's going to carry me to Atlanta," says the little "one-gallus" boy who's been lying awake at night thinking of what a big time he's going to have when he gets to town.

It will be a revelation to the little urchins to see for the first time in their lives a great city and to see the surging crowds that will pour along the streets.

They will wear their Sunday clothes, of course, and will look as spruce as a young cabbage. It will be "one-gallus" to see the city right and to read the different signs that hang over the show windows. But they will bring their best eyes along with them, and while they are here they will improve the time to the best advantage.

Of course they will have to carry something home with them to prove to grandma and Uncle Billy that they have really been to Atlanta. A lot of pumpkin seed or something

and they will only cost them a few pieces of silver.

Atlanta has a great many sights that our friends from the country will, no doubt, be pleased to see.

There is not in the land a finer building than the state capitol. They will all want to see that of course, since they have heard so much about it.

## TO VIEW THE PROCESSION.

its beautiful residences. It is considered by many the loveliest residence in the world. But that is not so, for many who have been to Europe say that there are several finer streets in London and in other cities of the continent.

The governor's mansion is situated on Peachtree street and nearly all the people in Atlanta live on that street. It runs along the top of a high ridge of hills and is built up for nearly five miles.

Governor Brown, who is considered to be the richest man in the state does not live, however, on Peachtree street. He lives on Washington street and occupies a very plain and unpretentious house. He is now in declining health and is not in any condition to see the visitors.

It is simply impossible to mention all of the places of interest to be found in the city. A cordial invitation is hereby extended to all of our friends in the country to come and see for themselves.

Fire in West End.

The home of Mr. Bass in West End was burned to the ground yesterday morning about 8:30 o'clock. The family barely escaped with

their lives, and nothing was saved except a few pieces of furniture. The loss is about \$1,800.

You Cannot Go

to Carlsbad, but you can have Carlsbad brought to you. Procure a bottle of genuine imported Carlsbad Sprudel Salt and dissolve a teaspoonful of it in a tumblerful of water. It is the best natural aperient extant. Nothing is "just as good" when you can get the genuine imported article.

For Bronchial, Asthmatic and Pulmonary Complaints, "Brown's Bronchial Troches" have remarkable curative properties. Sold only in boxes.

Mrs. Winslow's Soothing Syrup is an unequalled medicine for Children while Teething. See bottles.

Indigestion, dizziness, Take Beecham's Pills.

Fine Decorations.

A New York agent will show samples of fine paper hangings at Kimball house this morning between 8 and 12 o'clock. Apply early to M. M. Mack, who will secure the goods and decorate your residences in fine style.

Many Persons are broken

on overwork or household cares.

Brown's Iron Bitters rebuilds the system, aids digestion, removes excess of bile, and cures malaria. Get the genuine.

## NOTICE

All advertisements in our Want Column, such as "Lost," "Found," "Sales," "For Rent," "Boards Wanted," "Business Chances," "Personal," "Help Wanted," etc., cost Ten Cents per line or fraction of a line each insertion. There are seven words to a line. No advertisement taken for less than the price of three lines. Advertisements must be in Business Office before 8 o'clock p. m. the day before publication, and must be paid for in advance.
